Sir:

I have to acknowledge receipt of your letter of the 4th instant, relative to the extra desks required for the use of the Eastern school on the Tyendinaga reserve.

We are today placing an order with the Globe Furniture Co. Ltd., Waterloo, Ont., to ship addressed to you the following desks:

1	"	"	"	"	"	Rear,
1	"	"	"	"	"	Front.

These desks will be shipped knocked down and ink wells will be supplied with each. They will provide seating accommodation for 10 pupils. When they arrive, you should have them assembled and set up in the classroom in one row.

The account, which will cover the cost of the desks F.O.B. Deseronto, will be sent you in duplicate. Upon receipt of the desks, if in good condition, you should certify the account and send it to the Department in order that payment can be made.

It is hoped that, when these desks arrive, they will be satisfactory and will provide ample seating accommodation for all the children who attend this school.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

EXTRACT FROM REPORT OF MR. INSPECTOR CLARKE, dated October 11th, 1928, on his inspection of the TYENDINAGA EASTERN Day School.

Original on File 34-2-6.

There are no drinking cups supplied, but several families have their own cups at school. There are a few families however who have none.

The furnace is apparently all right, but the elbow in the smoke pipe is rusted out, so that there is a hole in it, and so far as I can find out, the pipes have not been cleaned for some considerable time.

xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx

Pipes for hot and cold air were reported in the Spring as being fouled by rubbish of various kinds. It is still there.

There is no clock in this school.

The waste pipe from the sink in the basement is still out of repair allowing the waste water to go on the floor. The pump for wash-water does not work properly.

Perhaps you do not wish me to report on these needed repairs. I would so infer from the fact that little or no attention is paid to the recommendations that I make. If that is your wish, will you kindly say so and, in future, I will make no comments whatever on this department of your schools.

EXTRACT FROM REPORT OF MR. INSPECTOR [illegible]
DATED JUNE 6TH, 1929, ON HIS INSPECTION [illegible]
TYENDINAGA EASTERN INDIAN DAY SCHOOL.

Original on File 34-2-6.

The school proper is modern in design and comparatively new. A coat of painton the outside and better fences would improve appearances on this Provincial Highway, where tourists by the hundreds pass it in the course of the summer.

In October I reported to you that owing to a defective waste-pipe, water was leaking on to the floor from the sink in the basement. It is just the same today.

LAWN FENCE for FRONT LAWNS, CEMETERIES, CHURCH YARDS, SCHOOL GROUNDS and OTHER PUBLIC or PRIVATE PROPERTY

STYLE "S" ON IRON POSTS WITH TOP RAILING

Style "S" fence shown above, not only adds to the artistic appearance of the grounds, but it protects the lawn from stray dogs and careless children, etc.

Style "S" has 1-3/8" mesh at bottom and 2-1/8" at top, and is stocked in 36", 42" and 48" heights.

Our Woven Lawn Fence is made from specially galvanized and tempered steel wire. The laterals are two No. 13 wires, cable twisted together. Uprights are made of No. 9 gauge hard steel wire, deeply crimped and secured in the cable twist.

Lawn Fence is regularly supplied in the galvanized finish, but if desired can be given a dip coat of green or white paint.

This construction, illustrated above, helps to set off the fence and makes it solid. If wood posts are used, a top scantling is required to protect the top of the fence.

The 1-7/8 (O.D.) pipe line posts are 6' 3" (or 7' for fence over 4 ft.). The 1-5/16 (O.D.) top railing is continuous through the post cap, and we supply a pipe sleeve for connecting the rails. For End posts, use 2" round pipe posts on short stretches or 3" pipe posts on long stretches, also for hanging single drive gates. Set them in cement.

OUR LAWN FENCES are woven absolutely even on Automatic Machines, and will stretch up straight and true on the posts.

STYLE "LP"
Mesh 2

The illustration on the left shows STYLE "LP" Lawn Fence used on a front lawn. It is also used as a backyard fence because its narrow mesh, which is 2" throughout, will keep out even the smallest chicks

Stocked in heights 36, 42 and 48 inches, but can be supplied 54 or 60 in. high.

Erected on steel posts with top rail, the "LP" Lawn fence illustrated above with a neat walk-gate adds dignity to any property—the fence and gates can be given a dip in white or green paint to suit the requirements or supplied in the plain galvanized finish of the wire

STYLE "L"
Mesh 3

The STYLE "L" Lawn Fence, which you see at the right with a wider mesh (3) erected on turned wooden posts, also makes an admirable job and gives the necessary protection to any lawn

It lets the sunshine in

Stocked in heights 36, 42 and 48 inches, but can be supplied 54 or 60 in. high

14

The advantages a Woven Wire Lawn Fence has over the ordinary wooden fence are many Steel fence lasts longer than wood, looks very much neater, and does not block out the sunlight

Wooden fences prevent the flowers or sod from receiving the full benefit of the sun's rays, a very necessary adjunct to good growth and healthy sod

For entrances to Cemeteries, Parks and Public or Private Grounds, an arch like this can be made to suit any of the three styles of Lawn Fence illustrated on the previous pages

This Arch is simple in design, but decorative in appearance. It can be made to suit any width desirable, with single or double drive gates as illustrated, or wi . additional walk gates at the sides. Usual width between posts is 10 or 12 feet

The Posts to which the panel is rigidly bolted at the top, are made of heavy 3 pipe, which also act as gate posts. The panel is 2 ft. wide, with 1¼" pipe frame, and filled with wire mesh, on which any lettering desired may be attached. Brass letters are 1 inch face and 4 or 6 inches high.

NOTE: The Drive Gates can be furnished in either single or double style and with plain, instead of scroll top, if desired

For Strength and Permanence this Angle Picket Fence is unsurpassed. It is widely used for Cemeteries, Churches, Schools, Parks, Manufacturing Plants, as well as private grounds.

This Angle Picket Fence presents a massive yet neat appearance Pickets are 3 inches apart and are inserted through a V slot in the 2 inch angle rails and then riveted to the rails, making them perfectly se cure

Instead of the 6 inch posts some prefer to use stone or cement columns. In this case the hinges should be put into the columns when they are being constructed.

Double gates should be used for all spaces over 5 or 6 feet wide

FROM REPORT OF MR. INSPECTOR H.J. CLARKE,

A EASTERN INDIAN DAY SCHOOL.

Original on File 34-2-6.

I am pleased to note the preparation for a new fence in front of this property. Being situated directly on the Provincial Highway, this school is very conspicuous and should be kept up well. At present it looks tidy, except for the fence.

There is no drinking water here this morning. Is it not possible to provide your own water supply here? Children, as you are aware, require far more water than do adults and, when they have to carry it any considerable distance, they do not get nearly the amount they should have. It would not cost a great deal to drill a well here and, in my judgment, a drilled well is much to be preferred to a dug well at a school. You have a demonstration of this at the Mission where you dug a well some time ago and the children refuse to use the water.

This school is still without a clock, although I have repeatedly referred to the omission.

The only recommendation that I have to make at this time to improve your premises is that well and I sincerely hope that you will consider this favourably.

Sir:-

Miss Stoddart the teacher at the Eastern School told me that the two outside doors where falling apart. I inspected them to-day and found then in bad need of repairs. I am unable to state the cost as they will have to be rebuilt and reinforced with iron strips, the cost however will be mostly for labour.

Will you kindly reply as soon as convient authorizing this expenditure.

May 7th, 1935

Enclosed please find requisition for school supplies submitted by Miss M.Stoddart, teacher, Eastern Day School, Tyendinaga Reserve.

Miss Stoddart in her requisition has asked to be supplied with a school clock, and also a book case. I have to state that the only clock in the school at the present time is a broken alarm clock, which is useless. I would suggest that [redacted] an eight day clock with twelve inch dial, the approx.cost would be $ 12.00. In regard to the request for a book case, I have to say that there is a large library in connection with this school, and the present cupboard is full, with quite a number of books over and no suitable place to shelve them. I would suggest that a book case be supplied, as many of the new books recently received are costly and should be shelved properly and taken good care of. the cost of a book case such as required would cost approx. $ 22.00, and should be completely enclosed with at least three adjusting shelves.

The Griffith Chemical Toilet has been designed to take care of problems of sewage disposal in districts that are not supplied with sewers or water supply.

No water is required. Our illustration shows a vitreous china bowl with seat and cover set [illegible] large cylindrical tank. The sewage drops directly into the tank where [illegible] top of the bowl. This ventilation is extended upwards to a point above the roof peak.

Installation of the Griffith Toilet is a very simple matter as it is only necessary to place the bowl on [illegible] floor—place tank in position beneath the floor [illegible] complete standard installation.

Griffith Toilets are absolutely odourless. Thousands of installations prove the merits of this equipment. Various sizes are built to take care of each problem. Full information mailed on request.

JUNIOR

Our "Junior" is constructed on the same sanitary principles as the "Griffith" but is a more moderately priced unit. The same chemical sterilization of the sewage takes place and the liquid sewage may be drained off from bottom of tank into pit as shown in illustration. Standard equipment includes only parts above floor line.

Sir,-

I beg to acknowledge receipt of your letter of the 20th ultimo, file [illegible], in which you advise me that provision has been made in the current year's estimates for an expenditure of $ [illegible] for repairs, improvements and equipment necessary at the four schools on the Tyendinaga Reserve.

In reply I have to state that the following repairs and equiptment are necessary.

[illegible]
Repairs to main entrance and porch floors
Repairs to top and curbing of well.
Fences East and back of school grounds needs repairing with new posts.
Outside lavatories in need of repair.
Material required for fall fair work.

[illegible]
New door required for main entrance, also door step renewed.
New screens required for windows
New heater required for school, present heater in dangerous condition, fire pot badly cracked.
Four new desks required, attendance increasing and not sufficent seating room.

[illegible]
New pump head required, and pump overhauled.
Repairs to lavatories required.
Wooden ceiling of school room requires bracing
[illegible] and new posts put in where required.

Mission School
New main door required.
Screens required for windows, and door.
Blinds required for windows

In regard to the new heater required for the Tyendinaga school I beg to advise that the present heater was purchased from the [illegible]

[illegible] Stewart Manufacturing Co. Waterloo, Ont. Name of heater, Good Cheer, No. [illegible]. This heater has always given satisfaction and is a suitable type of heater for this school.

In regard to the new desks required, single seats are preferable, the present seats in the school are Style 3. supplied by A.S.E.Co. School Furniture Co. Preston. Ont.

Your remarks in regard to the Eastern school have been noted and as much repair as possible will be placed on this school. I was hoping that this school at least could have received a coat of paint on the outside this year, but as this is impossible with the expenditure allowed for all four schools, I trust the Department will make a note of the fact that all schools are badly in need of outside painting, and that provision will be made in next years estimates if possible for the work to be done.

I should like to be advised as to when the work in the matter of repairs has proceeded and whether the Department will purchase the new equiptment, or whether it will be in order to purchase through our local merchants.

Deseronto, Ont. February 17th 1942.

Dear Sir:

I would wish to advise you that the present desk accommodation at the Eastern Indian Day school is quite unsatisfactory and the immediate purchase of six large sized adjustable desks is recommended.

The enrollment at this school is 45 and since a number of pupils are now attending,that previously were students at the Deseronto Public School the number of large desks are insuffecient to properly seat the pupils without discomfort,the present desks being low and without leg space,and are a menace to the health of the pupils.

The supplying of 5 new desks,Size 1; 1 Rear Size 1; 1 Front Size 1;would partially eliminate this cramped condition for the present and in the not to distant future it is my desire to make a survey of the desk accommodation at all the Agency schools and a recommendation to replace all the obsolete double desks now in use,with up to date single desks of proper sizes.

The Globe Furniture Co, Waterloo,Ont. have a Style 132 Steel Combination adjustable desk and the George M. Hendry Co. Toronto,Ont. have a "Preston" B.B.C. adjustable desk,either of these makes would be satisfactory and preferable for the Eastern School.

Extract for [redacted]

Original on 34-2-6

Extract from Indian Agent Moore's report on his inspection of the schools in the Tyendinaga Agency dated April 22, 1942.

At Eastern School there was considerable under-brushing to be done, old fence wire to be removed and a general cleanup made in the yard and this has been done. Spruce and cedar trees have been obtained from the Ontario Forestry Branch and have been planted around the [illegible] four schools. The school grounds have been land-scaped and a program of improving the appearance of these grounds commenced by the planting of shrubs and plants and it is hoped that this program may be continued in coming years. The work of planting has been done by the pupils under the supervision of the teachers and I am trying to create a feeling of pride among the pupils in caring for school property which has been lacking considerable in the past. $5.00 a school [illegible] of shrubs and plants is not sufficient to [illegible] I ask that this be increased to $15.00 a school, the extra $10.00 being needed for levelling of grounds, hauling earth for beds, and other necessities in preparing the grounds. An accountable cheque for $60.00 should come forward to pay for these needs.

Dear Sir:

A

Please find enclosed Credit Voucher No. 49 in favour of Tyendinaga Indian Agency Trust Account to the amount of $23.53 and being for shrubs purchased for the grounds of the Agency Indian Day Schools as was authorized by your letter 34-2-5 of April 29th. This purchase was made from funds advanced by departmental cheque # 12891.

In an endeavor to improve the appearance of the school grounds a program of planting of spruce and cedar trees for a wind-break and elm and maple trees for shade trees has been inaugurated,flower beds made and shrubs planted by the pupils under the supervision of the school teachers. The trees were planted in good shape in sod and are now being kept clear of weeds and grass by the pupils so that they may obtain maximum growth.

Teams have been engaged to haul good earth for the planting of the shrubs and flowers and stone borders are being made around these beds and along with the fence posts of the school yards will be white-washed with lime,which I am procuring from the funds advanced.

While no great improvement can be expected this year it is hoped that the pupils will take an interest in the proper care of what has been supplied and that each Spring additional trees and shrubs will be planted,so that eventually a marked change will take place at these school grounds,which with the exception of Eastern School have been quite barren in the past.

, Ont. June 19th 1942.

Dear Sir:

The following repairs are needed to the Eastern Day school and grounds and should be made during the coming vacation period.

Procure and install 20 rods of seven strand page wire fencing 4' high, replace 8 fence posts.
Plow and cultivate wet and unused portion of school ground on north side to remove thorns, wild roses and weeds to allow planting of evergreen trees next Spring.
Raise seats and enlarge boxes, install urinal in boys outhouse.
Repaint fence posts and supporting 2 X 4's of lawn fence on the south side of school lot facing the highway.
Replace worn out parts of eavetroughing and install 30 feet of conductor pipe. Repair and resolder leaky and broken joints in present pipes.
Make and install small trap-door for entrance to belfry to eliminate cold winds.
Procure and install one door for south entrance to school 3 feet by seven feet by 1¾ inches, with nine small panes of glass at top for lighting purposes. The present door is very much repaired and beyond further use.
Make repairs to three door locks and replace if not repairable.
Repair leak from belfry which is damaging teacher's room ceiling.
Install new board under pump in the basement of the school.
Construct two sand boxes in school yard 6' X 6' X 1'.

Some of these are small repairs that if allowed to continue will increase cost later on and should be attended to this summer. It is estimated that the cost of materials will run in the vicinity of $60.00 and the cost of labour at wages now prevailing the same amount.

Your authority is requested to purchase the materials needed at the most convenient places and at the lowest cost obtainable. The money for payment of wages to be sent forward to this office and to be accounted for by credit vouchers.

DEPARTMENT OF MUNITIONS AND SUPPLY
CONTROLLER OF MATERIALS
OTTAWA, ONT. CAN.

By virtue of C.S. Order No. 26, issued December 15, 1941, all Furniture Manufacturers are required to comply rigidly with the following regulations relating to School Desks embodying iron or steel standards.

(1) No individual orders to replace broken or wornout desks, or to provide increased seating accommodation involving over 50 units, may be filled without a permit from this Department.

(2) No consumer shall be allowed to purchase a total of more than 50 units within a period of six months, without a permit from this Department.

The only exemptions under these restrictions apply to new Schools and Schools damaged by fire, in which cases no permit is necessary.

To comply with paragraphs (1) and (2), a certificate as given below must be completed by the purchaser and attached to his order. Extra copies of this certificate may be obtained upon application to any of the established selling organizations.

OTTAWA July 2, 1942.

Tenders were called on the school recently requisitioned for Tyendinaga Eastern and Wo Indian Day Schools. We find that the total cost will approximately $627.43, and that since more than 50 units are involved it will be necessary to secure a permit from the Department of Munitions and Supply before we can place the order.

If you wish us to complete the purchase of the desks as requisitioned, will you please arrange to have the accompanying form filled out and returned to this office.

I also enclose for your information a copy of Globe Furniture Company's circular showing two styles of desks (numbers 1930 and 5402) made entirely of wood, for which no permit to purchase is required.

In view of the above, will you please advise to what additional action you wish to have taken.

I have your memorandum of July 2, with reference to the requisitions for school desks for the Tyendinaga Western and Western Schools.

Very careful consideration has been given to the contents of your memorandum, and it has been decided to notify the teachers concerned feels the old desks at present school will have to suffice for the it will be unnecessary for you to take any further action regarding these requisitions.

Mr. A.D. Moore, Indian Agent, Deseronto, Ont.

Inspector Arneil has recommended that additional land be obtained for the Tyendinaga Eastern School. I understand that he has discussed this matter with you and that the extra land needed can be obtained for an amount not exceeding $100.00. You should obtain an agreement from the person owning this land offering to sell it to the Department and at the same time you should describe the land in order that we may have the information required to obtain the necessary Order-in-Council.

Mr. Arneil also suggests the erection of [redacted] be made to have a flag pole out in the bush and it should be placed at the Eastern School on a cement base. The expenditure should be kept as low as possible.

Deseronto, June 4, 1943.

Indian Affairs Branch,

I have your letter of May 18th concerning extra land for Tyendinaga Eastern School and would advise you that I approached Herbert Brant owner of the adjacent lot and learned from him that when the Ontario Highway Department constructed their No. 2 Highway they ran a large drain tile across this lot and material for levelling could not be obtained without interfering with the tile. Herbert Brant was also reluctant to sell as he had promised the lot to one of his son's to erect a home on the cement foundation in the lot.

Considering the cost of purchase at $100.00 and the cost of filling, levelling and seeding this ground with the cost of additional fences necessary, I am now of the opinion the better plan would be to install tile drain in the present school grounds and drain this land to an adjacent water course some total distance of 300 feet to which there is a very good fall. I enclose a rough sketch of how I would propose to install these tile and would not consider the cost of tile should exceed $50.00 with some cement at the outlet to eliminate damage by frost. The cost for labour should not exceed $75.00 at the most or a complete job for $125.00

With reference to your letter of August 29th, 1947, file 34-2-5 (WT-1) concerning sewing cupboard for Tyendinaga Eastern Day School.

For specifications of type required, I would refer you to catelogue from Geo.M.Henry Company, Ltd, 270-274 King Street, Toronto, Ont. Number 431 in this catelogue is the cupboard prefered but if not available, number 421 is satisfactory.

Enclosed you will find cuts of these cupboards, and I would submit that the purpose for which this item is required is to better teach Home Economics, at this school.

Mr. W.M.Vincent,
Departmental Purchasing Agent,
Department of Mines and Resources,
Ottawa, Ont.

Dear Sir:-

With reference to the attached inquiry, we regret to disappoint, but have no stock at all of Wall Cupboards, nor are we able to indicate when it will be feasible to arrange to supply wither #431 or [illegible]. [illegible] a tremendous accumulation of business at the factory to clear before individual items, such as those mentioned, can be placed in work.

On account of these circumstances, we can neither estimate shipping date, nor price, because it is beyond the ability of anybody to forecast the costs of labour and materials that might develop in 1948 when the Cupboard happened to be built.

We are forced by these circumstances to accept open orders only, on the understanding that they will be filled at the earliest possible date, and at price prevailing at time of delivery.

If such an arrangement is not satisfactory, we can only suggest that you try to find a local carpenter or factory who will take care of the job based on whatever specifications you prepare.

Yours very truly,

EX'D. Ottawa, March 2, 1911.

I have to acknowledge the receipt of your letter of the 5th ultimo, and in reply I beg to say that, as under the arrangement for the upkeep of the Indian schools on the Tyendinaga Reserve responsibility for buildings, etc., lies with the Indians, the white trustees alone cannot institute any proceedings which would result in an outlay of Indian funds.

As to the feasibility of this ground I beg to say that this matter was brought to the attention of the Department by the Inspector last May and Mr. Stainton, the Indian Agent, was communicated with. I beg to quote from a letter received from him:- "It would to my mind be a waste of money to have "this school fenced standing as it does in a beautiful "hickory grove and in a secluded spot with very large grounds " and on a side road not travelled as it would be were it "situated on a main travelled road. It would scarcely appear "that cattle would be troublesome as no cattle are allowed [illegible] "would therefore appear to me as not being necessary to have "fence and building a fence." In view of this information the Department did not consider it would be necessary to take any action to have the ground fenced.

ADDRESS REPLY TO THE
SECRETARY DEPT OF INDIAN AFFAIRS
OTTAWA

153.984

CANADA

RANDUM FOR THE DEPUTY SUPERINTEND[illegible]

Messrs. J. E. Barnhart., D. H. Barnhart and J. A. Marcle, state that they are trustees of the Mission school on the Tyendenaga Indian Reserve, regularly elected by the people of the section in the usual way and they w ant to know if they have any power in the management of the said school, such as engaging teachers and discharging them and the powers usually vested in the trustees of the white schools.

These trustees I think have only such powers as may have been expressly given to them by the band or Council with the approval of the Superintendent General. Without such express authority I do not see how they could deal with school property or assume obligations with respect to school matters that would be binding on the band. They do not even represent the whole band, having been elected by one section of the band only. I am inclined to think that these trustees are in the position of a committee whose duty it is to make recommendations to the band with respect to school matters; but that the control of the school and the school property is in the hands of the band or Council, subject to the approval of the Superintendent General.

Ottawa, March 27, 1911.

Sir,

I have to acknowledge the receipt of your letter of the 7th instant in further reference to the powers of yourself and the other two trustees of the Mission School on the Tyendinaga Reserve.

In reply I beg to say that as trustees you have only such powers as may have been expressly given to you by the Band or Council with the approval of the Superintendent General. Without such express authority, therefore, you could not deal with school property or assume obligations with respect to school matters that would be binding on the band. It would appear, however, that your duties are confined to the making of recommendations to the Council in regard to school matters and that the claims of the Chief that you have no power to engage or discharge teachers or any of the powers usually vested in the trustees of white schools is well founded.

REPORT OF INSPECTOR H.J.CLARK ON THE TYENDINAGA(MISSION) SCHOOL.

Tho two smallest boys in this school had no dinner to-day. I noticed they were not eating when the others were and made inquir inquiry. I do not know whether thes occurs frequently or not. It might be well to find out. I shared my lunch with them and they ate with a relish.

Sir,-

In reporting on the Tyendinaga Mission school, Inspector Clarke stated that two of the smallest boys had no lunch and that he had to share his lunch with them. The Inspecto did not give the names of the boys.

All the parents should take enough interest in the education of their children, to see that they are provided wit lunch. Moreover, it is considered that all the parents are in a position to supply lunch for their children. You will be good enough to look into this matter and point out to the parents, in ation, their duty in this matter.

T OF INSPECTOR M.J.CLARKE ON THE TYENDINAGA MISSION SCHOOL.

During the first quarter the average was very low, only 6, since Easter it has been better and is increasing. Only about 6 are fairly regular in attendance. Progress is impossible under such conditions. Can nothing be done to make these children attend?

Why not lay out boundaries for each school and then you could keep some record of [illegible] whether or not they were attending. At present they go where they please and often not at all.

SUGGESTION RE TEACHER_____,-

The matter of irregular attendance on these schools is serious. In this school with 39 registered the average is only 11 and in the Eastern school it is 20.3 out of a registration of 42. You should take this up seriously.

I wish to call your attention to the Mission and Central school, Mrs Brant the Teacher at the Mission told me that she would stay till Easter and that She could make more money working in the Factory, if she leaves I do not know where we can get a Teacher to take thes school as their is no place for a Teacher to board.

The Central school Teacher says that Her expences is to high for the salary She gets and will not be able to stay. We have not got as good a Teacher in the Deseronto Public school as Miss Warren is and the Children at the Central school have learned more during the one year that Miss Warrem has been their than they did in the five years before. Their will have to be something done soon or these two schools will be vacent.

DEPARTMENT OF INDIAN AFFAIRS
CANADA Ottawa, February 6, 1920

MEMORANDUM.

Mr. Scott,-

Mrs. Brant, teacher of the Mission School on the Tyendinaga Reserve, had applied for an increase in her salary. The agent in forwarding this request states that if her salary is not increased to the same amount as the other teachers on the reserve she will not remain after Easter.

Mrs. Brant now receives $500.00 per annum, the other three teachers are paid $600.00 per annum, each. She has about the same qualifications as the other teachers. They have limited third class certificates which have expired, while Mrs. Brant has only high school standing.

The Inspector states that she does very good work and that the pupils are making fair progress. The agent states that she is doing as good work as any of the other teachers and that it would be difficult to get a white teacher to take this school as there is no boarding place within two miles of the school.

The present salary is paid from Band funds and I would recommend that she be given an increase of $100.00 thus making her salary $600.00 per annum the same as is paid to the other teachers on the reserve. This increase could be paid from band funds.

Miss Loft was a student at the Deseronto High School for two years of the five years during which I was Principal of that school. Her work and conduct was excellent in every respect. I will venture to say that her penmanship cannot be excelled by anyone in Ontario of her own age.

It is my conviction that Miss Loft would make a very faithful and painstaking public school teacher.

RECEIVED

EXTRACT FROM REPORT OF MR. INSPECTOR H.J. CLARKE, OCTOBER 15TH, 1929, ON HIS INSPECTION OF THE TYENDINAGA MISSION INDIAN DAY SCHOOL.

Original on File 34-3-6.

The Ontario Department of Education

Public Schools by teachers with Second Class Certificates by giving the teacher a small bonus grant. Agriculture is, or should be, a very live issue among these people. Would you consider some such scheme to encourage your teachers to take up this subject more systematically? The grant referred to above is, as you probably know, $15 per year where the work is approved by the Inspector.

[illegible]

August 19, 1935.

[illegible]:

The Honourable the Superintendent General,-

Mr. H. J. Eade, Indian Agent, Deseronto, Ont., has received the resignation of Thomas E. Emmons, teacher of the Mission Indian Day School on the Tyendinaga Reserve, No. 38 - Electoral District of Hastings South, Ont.

Mr. Eade requests that Miss Lilian Brant, an Indian girl, who is a member of the Tyendinaga Band and obtained her second class certificate two years ago, be appointed to succeed Mr. Emmons. Miss Brant has acted in the capacity of substitute teacher during the illness of the other teachers, in the schools on the reserve. I may say the Department assisted Miss Brant in attending high school and normal college. The salary rating at this [illegible] that, as Miss Brant would start as a new teacher, the salary allowed her should be at the rate of $85 per teaching month. Mr. Emmons taught at this school for 8 years. The rating at the three other schools on the Tyendinaga Reserve is $90 per month, each.

I submit, for your approval, the appointment of Miss Brant, to begin duties on September third, next, the date the schools re-open after the present summer holidays.

Sir,

Referring to the Resolution of the Council of the Mohawks of the Bay of Quinte, dated the 6th May to the effect that the Department be requested to pay David H. Hurdle six dollars for hauling material for repairs made to the Mission school last fall, I beg to say that the Department would like to receive some further explanations before considering the question of the payment of this account. Why was it not rendered at the time the work was done instead of being held until now. It would appear that this account is, at least partially, covered by that of Alonzo Young, which was paid in October last.

Sir,

I am in receipt of your letter of the 27th ultimo, and the Voucher therewith forwarded in favour of Mr Josiah W. Brant (supported by an account from the Tribbin Co) for material purchased for the enlargement of the Mission School house on the Tyendinaga Reserve; and in reply I beg to say that as apparently the Company's account (for $20.76) hasnot been paid by Mr Brant it is thought it would be well to draw the Cheque in their favour rather in favour of Mr Brant. The Department will await a reply from you before taking further action.

Sir,-

Mr. Public School Inspector Clarke in his recent report on the Mission school, Tyendinaga reserve, again calls attention to the urgent need for separate closets for the boys and the girls at this school.

Upon referring to the file it is seen that on July 3, last, you were informed that the yard should be fenced and separate closets provided. A blue print of a plan of a dry-earth closet was sent you at the same time for submission to the council.

This work should be undertaken at once and you will be good enough to bring it to the attention of the Council as soon as possible.

Kindly report to the Department in this matter.

Building is in fairly good condition except that the windows are loose; the foundation sills of the tower are weakened; and the front steps are out of repair.

The interior needs touching up in places where the putty coat of plaster is giving away.

Closets have never been satisfactory. They are much too small.

I understand that the owner of the adjacent land is about to place a fence between his property and the school grounds. I hope you will take the immediate precautions to see that he does not again use that abomination, barbed wire.

MEMORANDUM.

Mr. Scott,-

Mr. Agent Campbell of the Tyendinaga Reserve has forwarded an application to the Department for a teacher's desk and chair for the Eastern and Mission schools on that reserve. He says that the present desks in use for the teachers of these schools are very old and new desks are badly required.

I would recommend that he be authorized to purchase a desk and chair for each of these schools and, if this meets with your approval, I should be glad if you would state from whom the Agent is to make these purchases. The Agent does not state the cost, but a suitable teacher's desk can be obtained for about $12.00 and a chair for about $3.00.

Sir,-

In a recent report on the Tyendinaga Mission day school, Inspector Clarke states that the closets at this school are abominable. He also spoke about some plaster that has fallen.

On August 9th, 1917 you were instructed to have two suitable closets built. Apparently, these instructions were not carried out.

The Department now desires you to submit at once an estimate of the cost of building suitable closets at this school. You might also report in regard to the fallen plaster.

You will be good enough to give this matter your immediate attention, as, if the Department decides to take any action in regard to this school, the necessary work should be done during the coming summer holidays.

Ottawa, July 7th, 1918.

Memorandum Mr. Scott,-

On July 16th last I made an inspection of the Mission School and grounds, Tyandinaga Indian Reserve, and beg to report that the school building is a baloon frame, 20 x 30 with a lean-to addition of 6 x 20 providing entrance and cloak-rooms.

The building is old, cold and poorly lighted, and is deteriorating rapidly, and while providing accommodation for the pupils enrolled, will soon require to be replaced by a new and modern type of school building.

The building is maintained in the best of condition possible under the circumstances. The plaster [illegible] evidence of care and attention and a desire to maintain the building (including the floors) in a thorough sanitary condition. The painting, I am informed, was done entirely by the teacher and pupils, the money necessary having been provided through an entertainment held for this purpose. The efforts of the teacher in this direction is to be com- [illegible] inspections.

There are certain small repairs necessary in the interior, about three yards of plaster having [illegible] with wood fibre or other hard wall plaster at a probable cost of two or three dollars.

The closets are too small for the pupils these, and new ones should be provided at an early date.

School grounds are 120 x 240 ft. equal to about two-thirds of an acre. They provide adequate facilities for drainage and is a satisfactory school site.

The pupils enrolled here number 37 with an [illegible] The attention of the Agent and truant officer should be drawn to this.

Ottawa, August 14, 1915.

At a recent inspection of the school, it was noted that certain small repairs were necessary to the plaster, ceiling, etc., of the Mission school building, Tyendinaga Reserve. The repairs should be made at once with wood-fibred hard wall plaster, so that the can be tinted to correspond with existing walls. The closets should also be enlarged during the holidays as authorized.

This school appears to be much better conditioned than any of the others on this reserve, and warrants a better and more regular attendance of the pupils there, as an average attendance of 14 pupils with an enrolment of 37 is not a creditable showing..

It will be necessary for you to have the truant officer enforce regular attendance and report teachers for delinquency.

Sir:

I have to acknowledge the receipt of your letter of the 26th ultimo, informing the Department that the roof of the Mission school on the Tyendinaga reserve should be repaired, in order to prevent leakage, also that the plaster has fallen off the ceiling in some places.

In reply I beg to say that you may arrange with Chief John W. Marsole to repair the roof and the plaster. This work should be performed as cheaply as possible, and you should see that a satisfactory job is performed.

Properly certified vouchers, in duplicate, should be forwarded covering the expenditure incurred in making these repairs.

Extract from Inspector's Report on the TYWUDINAGA MISSION SCHOOL, May 23, 1923.

That partially dug well is a menace and dangerous in its unprotected state.

Outbuildings should be cleaned out.

Heating - Bad.

Ventilation - None.

Lighting - Bad.

Roof leaks and plaster is falling.

It is not so much cleaning that the closets require as it is proper construction. They are comparatively well kept but they are all open at the back making the pit an excellent breeding place for flies. They must also be desperately uncomfortable places in winter or windy weather.

A few desks should be varnished. Several desks are loose from the floor while most of those that are fastened down are too far from the seats. Usually the desk should overhang the lowered seat by from 1½ to 2 inches for best results.

H. J. Clarke,

Insp.

PUBLIC ARCHIVES ARCHIVES PUBLIQUES

Ottawa, June 14, 1923.

Sir:

The Public School Inspector, in a report on his recent inspection of the Mission School on the Tyendinaga reserve, states that the partially dug well is a menace and is dangerous in its unprotected state. In this connection I beg to say that, if this well is not required, it should either be filled in or a cover securely placed over the top to prevent any danger to the children. We understand that the water for school purposes is obtained from the well of Mr. E. Loft, which is situated about 200 yards from the school. It is hoped that the arrangement to procure the water needed from Loft's well can be continued. I shall be pleased to hear from you stating what you would recommend having done with this partially dug well.

The Inspector states that the toilets should be cleaned out. He says they are open at the back, making the pit an excellent breeding place for flies, and that they are very uncomfortable in winter. You should arrange to have these closets thoroughly cleaned out and put in good condition. The back should be closed in and made as comfortable as possible. Please have this work done at the lowest possible cost.

The Inspector further reports that the roof of the building leaks and the plaster is falling. You may arrange to have any repairs needed to these parts carried out.

Some of the desks should be revarnished and there are several which need to be fastened to the floor. The Inspector states that most of those which are fastened are too far from the seats - that the desk should overhang the lowered seat by from 1½ to 2 inches for best results. You may arrange to have the desks revarnished where needed and re-arrange all the desks in accordance with the Inspector's recommendation: they should all be properly fastened to the floor.

All the above work should be performed during [illegible]. You will forward properly certified vouchers in duplicate covering the expenditure incurred. You have already been authorised to arrange for the repairs needed to the roof and plaster. No doubt, you can arrange with Chief John M. Maracle to do the other work mentioned above.

In reply to your letter of May 7th Re the repairs to the Mission school,I beg to say that that I took a carpenter with me and made a carefull examination of the roof,and found that the shingles are rotten and that it should be re shilgled, as repairing it would be a waste of money.

Their will have to be some new window sashes and glass ,the ceiling will have tobe patched and the Tower will need some repairs,in all it will take about One Hundred and Fifty Dollars.

I can get good Ontario Cedar shingles for $ 6.50 per Thousand which would be equal to the red Cedar.

SIR.

In reply to your letter of June 16th Re Well, at the Mission School, I beg to say that Mr. Barnhart was the Tender that had secured Plaxis and valued amount $ 50. to dig a well,The first man that took the job dug the well down about feet and said the job and it caved in so the agreed to do when he took the job. got in full of sand H. Barnhart took the job to finish it and

I went and saw Mrs Brant who is at the head of the Finding the well and told her that if they did not finish it finding the Building that then it would have to be filled in she said that the Band they had done it first and there is Chippewa to Baptismal, She has Twenty Dollars on hand yet, and I think it will take about $ 40.to finish it.

If the well has caved in as the present Chief it would furnish plenty water for the present, and as soon as a good Spring is struck another for the school you can [illegible] will finish it now.

Sir:

I have your letter of the 13th instant, reporting on the repairs that will be required to the Central, Eastern and Mission Schools on the Tyendinaga Reserve.

Regarding the Central School, you may arrange to have the broken siding on the girls' closet repaired, also the eave on the south side repaired. You should have this closet out in a good state of repair.

At the Eastern School, you should arrange to have a new floor laid on the front porch. We note that you estimate the cost to be approximately $7.

The steps at the Mission School should be repaired, and the cost of this work should not exceed approximately $--.

Please have the above repairs attended to before the schools open after the present holidays, and forward vouchers for each school separately covering the cost of the repairs.

Extract from Report of Inspector H. J. Clarke on the Mission Mohawk School, dated October 22, 1925.

Original on Fyle 34-3-6

"..... The teacher informs me that the snow is never shovelled to the toilets during the winter unless she does it, and owing to the distance that the girls have to evade through the drifts to reach these toilets, it is very inconvenient. There is amply room to place these toilets to the north of the coal shed without endangering the water supply. This would make it far more easily accessible as there is always a track to the coal bin. . I hope you will have this attended to at once.

Ottawa, November 5, 1925.

Sir:

Mr. Clarke, Public School Inspector, in a report on his recent inspection of the Mission School on the Fyandinaga Reserve, states he is informed by the teacher that the snow is never shovelled to the toilets during the winter unless she, herself, does the work. The inspector states there is ample room to place these toilets to the north of the coal shed, without endangering the water supply, and that this would make them far more easily accessible in winter as there is always a path to the coal bin. He states he hopes that this matter will be attended to at once.

Please give your views regarding the inspector's recommendation. If it is too late this season to make any change in the situation of the toilets, would it not be possible to arrange with the janitor to see that the snow is shovelled and a good path made to these toilets. If you agree with the inspector that they should be removed to the site suggested, please give an estimate of the cost.

The inspector states that the well curb, which has been graded up with gravel, is sinking and that, to be safe, the waste water should be led at least 15 feet away from the well, by means of a trough, which could readily be made to do this. He also states that the well curb should be graded up again, to prevent waste water sinking into the well. Please arrange to have the [redacted] expense should be incurred. If a trough is required to carry away the waste water from the well, you may have one installed.

Please reply as soon as possible regarding the toilets and also concerning the action that you will take in the grading of the well.

Your obedient servant,

Re Closets I can not see how we can change them at present as they are not box closets and I will try and arange with the caretaker to keep a path clear to them this winter,this school is at the South west corner of the lot and not in the centerXXXXX as the Other schools are and the boys and girls all use the same yard at this school. and as to the well I have asked the caretaker to fill it in around the curb,and I will have a leader made to cary the water away from the well.

Extract from Report of Inspector Clarke on the Mission Indian Day School - dated June 7th, 1926.

Original on file 34-3-6

There is however a depression immediately in front of the entrance door that should be filled up with fine gravel. To make a good job of it two or three loads are required. At the same time that earth for flower beds asked for in October should be arranged for. It will not make much difference now until after vacation, and if the earth for flowers was put in now, it would destroy the efforts of the children to have flowers. The little fellows have carried earth and rock about [illegible]. [illegible] ment is ready to help them out.

The teacher tells me that these children have not been able to play a game of Baseball this year, for want of materials and that they are not able, to buy the equipment. They have had the humiliation of having to decline a challenge from another school for the reasons stated above. Is there any fund from which an inexpensive outfit could be provided for these children? Play is a very important part of the training of every young animal, humans included, and it is too bad that poverty should deprive these children of the privilege of play.

Ottawa, October 25th, 1929.

Sir:

I beg to submit the following report on my recent visit of inspection to the Tyendinaga Agency.

x x x

The following repairs and equipment are needed and recommended for the Mission Day School.

A new chair for the teacher, the present one is worn out.
Two new front desks No.3) 2 desks new
Two new rear seats No.2) Single.
The stove is cracked and in poor condition, it should be replaced by a Furnacette, the same as installed in the [illegible].
The outside of the building is badly in need of paint; it should be painted next summer. The two closets are placed in a hollow part of the lot and are too far from the building; they should be moved to higher ground and closer to the school. The screens in front of both closets need repairing; this should be done as soon as possible.
The floor in the boys' clothes closet is badly broken; a new floor is needed.
The front entrance door looks very shabby and dilapidated; it should be replaced by a new one when the building is being painted. The Teacher's residence attached to this school is in excellent condition and very comfortable, but it should have a dividing partition in the cellar to provide a fruit and vegetable compartment and also to prevent the water cistern from freezing during the winter months. If sufficient lumber to make the partition, 27 x 8 ft. is supplied, the teacher will erect it himself without cost, Agent Campbell might purchase the necessary lumber and have it delivered at the residence.

Thos. McGookin.

Inspector.

Sir:

Mr. Inspector McCookin, who recently visited a new chair for the teacher, 2 desks No. 2, 2 rear seats No. 2 and 2 front desks No. 3, are required. The Department is [illegible] Waterloo, Ont., to ship, charges prepaid, addressed to you, [illegible] to forward their account, in duplicate, to you, covering the cost. When the desks, etc., have been received, you should certify the account in the usual manner and send it to the Department for payment. When these desks arrive, you should [illegible] up in the classroom.

The Inspector recommends that the school building [illegible] if you will draw this matter to the attention of the Department early next Spring, stating what painting you would recommend be carried out and the approximate cost of same.

The Inspector also states that the two closets are placed in a hollow part of the lot and are too far from the building. He states that they should be moved to higher ground and closer to the school, also that the screens in front of both closets should be repaired. I have, therefore, to request that you will arrange to have these closets removed [illegible] the screens repaired as soon as possible. You should see [illegible] t this work is done at the lowest possible cost.

The Inspector further states that the floor in the [illegible] clothes closet is badly broken and that a new floor is

School in very good condition except for some repairs which have been authorized but which have not been done. Attendance is very good considering the weather.

In my report upon this school of last October, I recommended that the closets should be moved closer to the school and to higher ground, with Agent Campbell a suitable site was selected, also that new screens be provided and some other minor repairs made, these were authorized and should have been done right away, but have been neglected. I instructed the agent to have them attended to as soon as weather conditions permit.

Arrangements have been made for the painting of the exterior of the school and for a new front entrance door, as soon as convenient.

Herman Clause, newly appointed truant officer, is reported as doing his work very satisfactorily and already a change in the attendance is noticeable.

I hope to make another visit to this reserve before the schools close for summer holidays and will make a full report upon conditions of school activities.

In reference to your letter dated sept 22 Re seats requred at the Mission School, I do not know what I can do in the matter, I might be able to ger a few seats from the Central school as the attendance is down at present.

In regards to the Mission school it is to small for the number attending school their as we have not got air space enough, and something will have to be done in the near future, if twelve feet was built on the north end it would make it large enough.

I had Dr Boyce to examine some of the Pupils at this school on Sept 22nd and I am enclosing herewith the report made by him on the Mission School for your consideration.

Ottawa, September 29, 1932.

Sir:

I have your letter of the 23rd instant, enclosing a report from Dr. Boyce on his inspection of the Mission School on the Tyendinaga Reserve, and requesting that an addition be built to the present [redacted].

In reply I have to say that we will have no funds to cover the cost of building an addition or in supplying extra desks. It is noted that at the present time there is an enrolment of 50 pupils, with an average attendance of 42. It is doubtful if this attendance will keep up during the winter months. If there are any desks not in use at any of the other schools, you might arrange to have them transferred and set up in the Mission School. It is considered that, with a re-arrangement of the desks at the various schools, there should be sufficient desks to provide for all children who would attend.

[redacted] ments you can by a re-adjustment of the desks at the different schools. Later, if funds permit, consideration would be given to supplying a small number of extra desks for the Mission School.

Your obedient servant,

A. F. MacKenzie.

Sir:

I have your letter of the 13th instant, enclosing your reports for the month of February on your visit to the Indian day schools in your Agency, and drawing attention to the condition of the plaster in the Mission School and recommending that same be repaired during the coming Easter holidays.

In this connection I have to request that you will furnish the Department with an estimate of the cost of the material and labour in carrying out the repairs to the plaster. You should also give an estimate of the cost of the material and labour in installing a new floor in the cloakrooms. I may add that our funds are extremely limited, and only the work absolutely required should be estimated upon. When we have particulars as to the cost involved, consideration will be given as to whether funds for the purpose can be provided or not.

If the work is authorized, please state whether it could not be carried out before the end of March, next, in time to have the accounts reach the Department to be paid from our Appropriation for the current fiscal year. Should the work be undertaken before the Easter holidays, would it be necessary to discontinue classes for any length of time while the work is being carried out?

Sir,-

I beg to ask whether any appropration has be made this year for repairs to school buildings on the [illegible] repairs and improvements are necessary as follows.

Mission School.

The ceiling of this school room is badly in need of repair, the plaster is very loose in places and is dangerous to the pupils, this ceiling has been patched many times and should be replaced by four new standard blinds. The fencing [illegible] fencing are necessary for this work. four screens should be supplied for the windows. The foundation of the school needs re-pointing as snow blows through the open joints and comes up through the floor in the winter time,causing dampness.

Eastern School.

Three door handles are necessary for this school also six window screens [illegible] need repairs,

Central School.

Window screens are necessary,four in number and one door screen

Western school

Window screen,are necessary and four are required also one door screen.

Ottawa, December 21, 1934.

Sir:

H.X.D.

I have completed an inspection of the Tyendinaga Agency and beg to submit the following report on conditions generally.

x x x

At the Mission school there is no water supply. The teacher has to haul water for the pupils and residence in milk cans from Marysville 2½ miles distant.

x x x

As soon as funds can be found these schools should be provided with a proper water supply in the interests of health.

I have to state that in my letter of July 20th I quoted two separate prices for a new heater for the council room. I now find that in order to replace the present heater with one exactly the same the price would be $ [illegible]. This price is exclusive of delivery at Deseronto, to the reserve.

The heater to be replaced has always given every satisfaction and I would ask your approval to purchase a similar heater, or furnace, If approved the purchase will be made through Mr Niel Flood of Deseronto Ont.

Sir,-

I beg to acknowledge receipt of your letter of the [illegible] file [illegible]. in connection with the report of Technical Forest Inspector [illegible], in which he suggests the opinion that shop and tables are necessary for the day schools on the reserve. As your request to be advised as to whether tables can be made, and if so the approx cost of the lumber which would be necessary.

In reply I have to state that the pupils of the schools could make the required tables in connection with their manual training studies, and the approx cost of lumber tables etc. would be $ 5.00
If it considered necessary to line the tables with galvanized tin the extra cost would be $ 20.00 or $ 5.00 per table, it is usual I believe to have a galvanized pan with rod held on that the rain will not run through, although by having the table with tongue and groove lumber it may not be so necessary.

Deseronto, Ont., August End, 1939.

REPORT ON TYENDINAGA AGENCY FOR JULY 1939.

x x x

The four Indian day schools have been closed during the month of July for the summer holiday period. General repair work found necessary at these schools is being done by Indian labour. It was impossible to secure an Indian carpenter in July to do carpentry work at the schools due to the fact that all Indian carpenters were employed in the construction of the storage granary. This caused delay in having repair work done on the schools but repairing has now been started and should be completed by the end of next week. After the repair work on the schools is completed, it is thought that there will be some unexpended funds from the $350.00 which was set aside by the Department for school [redacted] balance cannot be ascertained until the repair work has been finished. A letter in connection with the painting of the schools will be forwarded to the department at a later date.

Dear ,

Miss Lilian Brant, teacher at the Mission School has requested that arrangements be made to move the school library into the class room.

The library at present is out in the boy's locker room, and as it is so cold and out of the way, very little use is made of the books.

al training bench is in the other cloak room and she would like this brought in also.

Both of these changes would improve the school work, as Miss Brant would have the library and manual training under more direct control, and there would be more use made of these facilities.

I estimate that $5.00 would more than cover the cost of these changes, and I would be glad to have your approval.

Dear Sir:

I thank you for your letter of May 11 re: my recommendation for the painting of the Tyendinaga Mission School and Residence this year.

I believe that this can be done and still leave enough to take care of repairs and improvements on the four Indian Day Schools for the balance of the fiscal year.

I have had one quotation from an Indian painter to supply labor and material necessary to give the school and residence two coats for $ 95.00, or this party will supply labor necessary for $ 55.00. I estimate the material will cost as follows:

Under coat	6 gals. @ $ 3.50	$21.00
100 lbs. white lead		13.00
5 gals. of oil @ $1.25		6.25
3 qts. of green outside paint		4.00

I believe that this work can be done for $ 100.00 and if you will so authorize, I would like to have it done next month. The present colour is a light brown body with a dark brown trim but I propose to have these buildings painted white with a green trim and in doing so the four schools will then all have been painted alike in colour.

Dear Sir:

Please find enclosed Requisition for School Materials submitted by the teachers of the Central and Mission Indian Day schools of Tyendinaga Reserve.

Mrs. Maracle of Mission School had previously sent forward a requisition for her years supply and had omitted to include library books and some garden tools that are necessary at this school.

Having went to considerable expense this year in an endeavor to improve the appearance of the school grounds at the Agency schools, in the planting of trees, shrubs and flowers, I found that these schools have no tools to work with and did request that each school requisition for this equipment, the cost of which could be kept as low as possible.

Dear Sir:

The exterior of the Mission Day school is not in bad state of repair but considerable work is necessary to the interior of the whole building. This structure is quite old and the wall plaster is in bad shape,being loose and brokem from the lath in many places. The floors are in such a condition andthave been repaired so often that the class room cannot be kept warm from winds coming up through. The doors have been reswung so often that there is no place on either the door or the door frame that can be utilized to make further repairs.

The following repairs are recommended for this school and grounds,

Remove all wall plaster to the lath and replace with ten-test or some suitable wall board and panel same. Above the wain-scoting these walls are 7½' high by 28½' long and the ends are 9' high by 20' wide. The cloak-rooms are 6' square by 6' high.
Repair ceiling plaster where needed and muresco the same with a light colour to increase lighting in the class-room. The walls should also be painted a light colour to increase lighting. The wain-scoting to be painted with an additional coat of its light grey.
Procure and install new doors on both the outside and inside of the school, one 6' 7" X 33" X 1½" and the other 7'2" X 3' X 1¾"for the outside that should have six small panes for light.
Procure and install two new door frames of a wood suitably hard to meet the wear and tear of a school.
Install a new floor over the present one of ¾" hard wood flooring,size 19' by 28' which excludes the platform at the end of the class-room.
Repair and nail down school desks.
Renew 10 new lengths of heavy stove pipe,7"X 24".
Point chimney to stop leakes in north end of building.
Cut down and remove dead pine tree.
Procure 1½" T & G lumber to refloor porch 5' X 7'.
Install 36 coat hangers in the two cloak rooms.
Erect a new fence across the front of the school and teachers residence, 7 strand 4' high. Renew 18 fence posts and brace posts. Procure and install two small wire gates 3' X 4',one for entrance to the school and the other for entrance to the teachers residence,where there are no gates at present.
Place 3 loads of gravel at the entrance to the school and the cuthouses.

To do a repair job of this nature some leeway will be necessary to purchase small items not now listed. It is estimated that the materials will cost at least $200.00 and the labout $150.00 to complete this work. An advance for wages should be made and accounted for by credit voucher.

Deseronto, Ont. July 21st 1942.

Your File 34-3-5.

I have your letter of July 1st in connection with the requisition for repairs I made on the 19th of June last for Tyendinaga Agency schools and I am sorry to be informed that funds are not available for this work.

As $45.00 has already been authorized for repairs at Western School leaving a balance of $205.00, I would ask your authority to make the repairs necessary to the Central School this summer, estimated at $145.00 and use the balance for small repairs at the Mission and Eastern Schools.

While Eastern School is in fairly good shape and needs many small repairs, Mission School is in such bad shape that a considerable sum will be necessary to make much of an improvement and the funds available this year would not suffice in their entirety and there is little sense in making partial repairs at this school.

As I am now preparing the estimates for the year 1943-44 I am going to include in these estimates sums suffeciently large enough to repair Mission School and also to supply single school desks for Western and Eastern Schools, the requisition for which desks have already been turned down this year for lack of funds.

Of the funds available this year at this date $205.00 I would ask that $100.00 of this be sent forward to pay wages and the balance used to pay materials by voucher.

A. D. Moore, Indian Agent.

Deseronto, Ont. October 23rd 1942.

Dear Sir:

Please find enclosed a requisition submitted by the teacher of the Eastern Day School, Tyendinaga Reserve, which supplies are urgently needed at this school and should be sent forward without delay.

The enrollment at Eastern School is now fifty-eight, being increased by pupils that formerly attended white schools and also by two pupils that are taking their first year high school,which makes necessary this additional requisition.

To accommodate all these pupils Miss Stoddart,teacher at this school would like two large desks for the use of the two high school pupils such as supplied by the Globe Furniture Co., Waterloo, Ont. It is requested that model # 10 New Globe combination desks be supplied as follows; 1 only single desk No. 1; 1 only rear for single desk No 1; and 1 only front for single desk No. 1. and that the same be shipped freight paid to Deseronto.

If it is not possible to procure these desks through your department,I would wish your immediate authority for me to contact the local public and high schools to endeavor to procure two needed desks from these schools who may have spare desks and if such were not obtainable that I be authorized to purchase a suitable table and two chairs to take the place of desks,which table would be an asset to the school if not needed for the pupils in class-room work and could be used as a manual training and sewing table.

Ottawa,
May 19, 1943.

Mr. A.D. Moore, Indian Agent, Deseronto, Ont.

Inspector Arneil has brought to our attention your letter of June 19, 1942, in connection with repairs required to the Tyendinaga Mission School.

Mr. Arneil states that Indian labour can be secured to do the necessary work. When required you may apply for an accountable advance.

Please forward immediately a requisition for the [illegible] to renovate this school. I understand that the total cost of the material and labour will not exceed $400.00.

I have your letter of the 19th instant in connection with repairs necessary at the Mission Indian Day School and I [illegible] are needed to make repairs to the interior of the class-room only for if $400.00 only is available it will take this amount [illegible] fences and grounds.

Roughly estimating the cost of materials on the [illegible] school on June 19th 1942,I at that time did not consider it [illegible] were in the class-room and this now makes it necessary to remove [illegible] cost of both materials and labour.

An advance cheque of $180.00 for payment of labour should be sent forward during the latter part of June and the materials should be on hand the first week in July so that the work may be commenced at that time. If further funds are made [illegible] outbuildings and grounds.

Your letter of June 5th concerning the securing of [illegible] to the Missin Indian Day School, Tyendinaga Reserve, was received at this office on the 8th instant. On account of the difficulty in procuring materials no Deseronto firm quote on the requisition.

Enclosed you will find quotations I have obtained from the R. W. Kimmerly Lumber Co. and the Lennox Lumber Company, both of Napanee, Ont.

In my requisition of May 31st I omitted to include the hardware necessary for the two doors and also for the installation of the storm windows and local purchase of these needs can be made as the work progresses.

furnace at the Mission School Teachers Residence, Tyendinaga Reserve, needs a new set of grates and a new T pipe with check damper complete. This set of grates is composed of three pieces and the furnace was made by the Pease Foundary Company, Toronto, Ont. the model of furnace being a "Brampton # 17-34".

Through dampness the pipe is badly holed from rust and creates a fire and gas hazard and it will be necessary to have an exact duplicate made to ensure a proper fit and I believe the old check damper can be used in the new pipe. The total cost of these repairs should not exceed $10.00.

DEPARTMENT

INDIAN AFFAIRS BRANCH

Deseronto, Ontario, June 27th, 1944.

Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa.

Please find enclosed requisition in duplicate for material necessary to make repairs at the Mission Indian Day School, Tyendinaga Reserve, and which materials are necessary to repair fences, install gates to both school and teacher's residence, install board walk to entrance of school, and paint out-buildings, woodshed, garage, and fence posts.

Some small repairs are necessary to the desks, main entrance door lock in the school proper, and I would estimate the cost of wages in making these repairs to be $ 60.00. To expedite delivery, it is suggested that the materials be secured by local purchase from lumber and hardware merchants, and such purchases can be kept below the $ 50.00 limit from each merchant.

Re: Nails for Tyendinaga Agency I.A.B. File

We are unable to secure locally or elsewhere for an indefinite time the nails covered by your requisition of the first instant required for repairing three Indian Day Schools on the above reserve, nor is it possible for this Department to secure priority for same. Under the circumstances I would suggest that Mr. J. H. McVicker continue his efforts to arrange for purchase of the nails from sources in Deseronto or vicinity.

PLEASE QUOTE
FILE - 50-20

Deseronto, Ontario, [illegible], 1947.

Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ontario.

Please find enclosed equisitions for school materials for Eastern, Central and Mission Schools, Tyendinaga Reserve for the 1947-48 term.

Included in these requisitions are a number of items which can be purchased locally, and I would recommend that authority be forwarded to this office for these articles.

I would advise that at Mission School there is seating capacity for 32 pupils only and the attendance at present is 36, necessitating the use of the teachers desk by some of the younger children. A survey of the immediate vicinity reveals that the full attendance will be approximately 41 pupils-which number can not be accomodated at Mission School. To offset overcrowding it will be necessary to direct some of the children to Eastern and Central schools but these children will then have considerable further distance to travel, thus creating hardship on them. It is recommended that if any programme of school building is contemplated, that consideration be given to either a new Mission school or the building of a consolidated school for Tyendinaga Reserve, with a school bus service.

Form 1
11/7/47.
5-13

The teacher of Eastern School, Miss.N.Stoddart, reports that she has not as yet received the yearly report form which should have been submitted to the department, and we request that these forms be forwarded to her at your earliest convenience.

END.

Ottawa, August 15th, 1947.

Mr. J.H. McVicker, Clerk in Charge,
Indian Agency, Deseronto, Ontario.

With reference to Tyendinaga Mission [illegible]

(1) Purchase new stove for school at a cost not exceeding $100.00.

The old stove is to be moved to Agency office and used as required.

(2) [illegible] residence at a cost not exceeding $100.00.

The old stove can be given to an Indian.

(3) Make the necessary repairs to porch.

The Department approves the above [illegible] accordingly.

Authority is requested to purchase a lawn Mower for use at the Mission School, Tyendinaga Reserve. I think a 16" mower, which would cost in the neighborhood of $17.00, which could be purchased locally, would be suitable.

I understand that in the past they have had to borrow a neighbor's mower to keep the grass cut around the School and Teacherage.

At a recent inspection of the Mission School's teacher's residence, I found the screen at the out-house needing repair by the installation of new cedar posts and the replacement of a number of boards in the screen. Five new window blinds are required for this residence, also a large pane of glass to replace a badly broken pane.

The total cost of materials and labour to complete these repairs should not exceed $20.00 and your authority is requested to proceed with the work.

Sir,

I have to acknowledge the receipt of the quarterly return of the Western School on the Tyendinaga Reserve, as well as a requisition for teacher's salary for the quarter ended 30th ultimo.

An increase of salary at the rate of $50.00 per annum over that previously paid to the teacher is asked by the said requisition. The Department has not been advised by you as to any increase in salary having been granted and there does not seem to be on file any resolution of the Band in council authorizing the payment of this increase.

You will be good enough to inform the Department whence on whose authority this increase in salary was made and also whether or not it has been authorized by the Council of the Band. The teacher's salary for the above quarter cannot be paid till this information is received.

19. How can there be satisfactory progress.

Miss Picard has now had some measure of training and I

think we are entitled to expect better work particularly in the

Junior grades. So far she is not making much use of what she learned

last summer. My impression is that very little teaching has been done so far.

Are not these people entitled to the best teachers?

These pupils are not up to the standard of the white

schools in certain subjects and the progress is not what it should be,

but unless an effort is made to make the attendance more regular, it will

be difficult to attach the blame on the teacher.

We the undersigned interested members of the Western School do hereby make complaint against Miss Pickard as failing to perform her duty properly as teacher. Miss Pickard has been now in the neighborhood of five years and the children are not making any progress what so ever in their lessons. Children of 11 or 12 years of age do not know any more than children of six years are. We are simply disgusted in sending our children to school hence we would insist on having a change of teacher.

which I visited to-day.

After I had completed my inspection of the western School,I had a complaint from the man who lives next door,I do not know his name,that his child had not made satisfactory progress.He is of the opinion that MissPicard does not always do all she might for the advancement of her pupils.They certainly have not done much this term so far.He also stated that she is in the habit of saying that she does not like teaching,but is doing it for the money. Of course we all work for money,but it would be better for her not to say such things to the children,if she has done so.All I have for it is his statement. I have no authority over your teachers,but it would be well if you would point out to all your teachers that we expect the standard raised to that of the white schools just as fast as possible,and if she used the language credited to her advise her not to do so again. I do not think she works as hard as so me of the other teachers,but I see them so seldom that I would not like to be too positive in my opinion.I do know that the standard is lower than in white schools,and as I say in the reports I expect better work in the lower grades now that these girls are trained.

You know these Indians better than I do,but that man this morning seemed to be quite an intelligent man,and if what he says is true,it should be stopped

Do you know why the Indians object so to these girls?There seems to be quite a feeling against them in some quarters.With the present supply of teachers,you

SIR.

In reference to your letter of May 2nd Re the Teacher of the Western School of the Tyendinaga Mohawk Reserve, I beg to say I have talked to a number of the Indians over this Teacher and they all say that their Children do not learn any thing but to cut paper and make fancy work, and play checkers, and domono, e and croka. I do not know why the Indians are so down on this Teacher it is not only now but before I came into office they were down on this Teacher for some reason which I do not know .

When Mr Abraham was here the first of April and we had a meeting at the Council House on the 3rd and Miss Pickard closed Her school and came their and Mr Abraham told Her that we would be to Her school on thursday the 5th and when we went to the Western School the door was locked and Miss Pickard was gone and she was not supposed to close the School till Thursday at 4 oclock.

I have asked Mr Clarke to report on the Schools on this Reserve as he finds them when He visits them this spring.

I am enclosing herewith a letter from MR Clarke on the 21st of Sept, 1916 to me.

MEMORANDUM.

Mr. Scott,-

With reference to Mr. Campbell's letter of the 30th ultimo in regard to complaints made against Miss Picard, teacher of the Western School on the Tyendinaga Reserve, I beg to say that in April, last, a complaint was made by some of the women of the band that the children were not making progress under Miss Picard and Mr. Campbell was asked to furnish the Department with a complete report on this matter.

Mr. Campbell replied that he had talked the matter over with the Indians and they all said that their children did not learn anything, but to cut out paper, do fancy work and play checkers. He claimed that he did not know why the Indians were so down on this teacher, but they had been down on her before he was made Agent. He stated he had asked Mr. Clarke to report on the schools on the reserve as he found them when he visited them in the spring.

Mr. Clarke, the Public School Inspector, visited this school on the 28th of May, last, and the following are

General progress - some, but in so small a school it should be much greater. Not what you have a right to expect."

He also stated that some inquiry should be made as to why the children are leaving this school.

When Mr. MacKenzie was going to Chemong to inquire into school matters there I suggested that he stop off at Tyendinaga and find out what was the trouble on that reserve about the schools. This suggestion was not acted on and it was decided to let the matter stand.

In the meantime I wrote to Miss Picard and

asked

asked her to call here on her way east for her holidays, which she did. I told her of the complaints made against her and she admitted that she had had trouble with some of the Indians on the reserve, but that she was getting on alright with them now and that, if Mr. Campbell had given her any assistance, she would have had no difficulty. She claims that Mr. Campbell is unfriendly to her and, as far as I can make out, he is more anxious than the Indians to have a change made.

Mr. Campbell says that, owing to her unpopularity, many of the Indians are sending their children to the Central School. Miss Picard says that this is not the case, but that they go there because they are nearer that school.

If you will refer to the map of the reserve which shows the school sections laid out by Mr. Campbell you will see that the Western School section includes lots which should properly belong to the Central School section and some of the children living on these lots are two miles from the Western School and less than a mile from the Central School and this is why they go there.

There were no reports against Miss Picard until Mr. Campbell took charge and Mr. Inspector Clarke's reports were most favourable previous to that. Miss Picard is quite

quite competent to teach and it would be a difficult matter for anyone to satisfy the Indians at Tyendinaga at the present time. Miss Picard will be returning after the summer holidays and it would be only fair to her that an inquiry should then be made.

Mr. Clarke and Mr. Campbell have been written to about the appointment of a teacher to succeed Mr. Lewsen at the Mission School.

Sir,

I have to acknowledge the receipt of your letter of the 31st ultimo enclosing a resolution of the Council of the Chippewas of the Thames asking for the dismissal of Miss Mary E. Vining, teacher of the River Settlement School on the Oneadoe Reserve, together with a petition to this effect from eight members of the band.

In reply I beg to say that, while the Department is not disposed to comply with the request of the Indians and dismiss Miss Vining, it is considered that it would be in the interests of all concerned if a change were made. The Department would like you to communicate with Miss Vining and suggest that this might be carried out, as there is a similar situation existing at the Eastern School on the Tyendinaga Reserve in the County of Hastings. The Indians have apparently grown tired of both these teachers and it might be to the advantage of all concerned if an exchange were made.

The Department would like you to submit this suggestion to Miss Vining and obtain her views. Kindly reply as soon as possible.

In case an exchange can be effected the Department would like to know what boarding accommodation there is for the teacher of the River Settlement School and the rate charged per month.

Madam,-

Mr. Agent Campbell has again brought to the attention of the Department the matter of the compliants against you made by the Indians and states that they have refused to send their children to your school in the future and have asked for a change of teacher.

While the Department is not prepared to accede to their request, it thinks that it would be to the advantage of all concerned if you were placed in charge of another school. The teacher of the River Settlement School on the Caradoc Reserve, near St. Thomas, Ont., is in the same position as yourself. She has been in charge of this school for about six years and the Indians are asking for a change and the Department would like to know whether you would be willing to change positions with Miss Vining, the teacher of the River Settlement School. She is being written to to this effect also.

Dear Sir,

In answer to your advertisement for a teacher in the morning's Daily Mail and Empire, I beg to offer my services. I was trained for two years at Chapham Training College, London, England and have my Endorsed Teacher's Certificate. (Pupil Teacher, and afterwards a Headmistress) I have had considerable experience in the management of children.

I have certificate of the London County Council, England, for proficiency in teaching Physical Culture, Art, Needlework, and Elementary Science.

I was married nearly five years ago and came to Canada. My husband went overseas more than a year ago and is stationed in England for the duration of the war. I feel that I should like to obtain work for which I know I am best suited.

The Minister of Education informs me that my English certificate, qualifies me at present as a Provisional Second Class teacher in Canada.

Madam,-

Mr. Superintendent Loran has forwarded to the Department your application for appointment as teacher at the Rverenn Indian school.

In regard to this school, I bee to say that a teacher has been secured. The Department, however, has a vacancy in the Western school on the Tyendinaga indian reserve, which is situated near Deserento, Ontario, and would be pleased if you would take charge of this school.

A salary of $350.00, a year, will be paid and your duties could commence on September 5th, next.

Any further information you may require can be obtained from J.M.Campbell, Esq. Indian Agent,-Deserento, Ont.

I might add that all the Indians on the Tyendinaga reserve are Anglicans.

Kindly inform the Department, by return mail, if possible, if you will accept this school.

Sir,-

I have to acknowledge the receipt of your letter of the 2nd instant, enclosing the resignation of Miss Kathleen Mills as teacher of the Western School on the Tyendinaga Reserve, to take effect at Easter.

In reply I beg to say that the resignation of Miss Mills is accepted and the Department will pay her salary to the date on which she leaves the school. She should forward a return through your office, showing the attendance and days taught, when the amount of salary due her will be paid.

You should communicate with Mr. Inspector Clarke with a view to obtaining the services of another teacher for this school. You should submit the name, age, religion and qualifications of any applicants, or who are recommended by the Inspector. The new teacher will be expected to teach during the Easter holidays and the month of July [illegible] for the period the school was closed. It is hoped [illegible]ou will be able, after consulting with the inspector, nominate a teacher for this school and that there will be no delay in opening the school by the first of April next. A salary at the rate of $550.00 per annum will be allowed for the services of a qualified teacher.

You should give this matter your prompt attention.

Sir,-

I have to acknowledge the receipt of your letter of the 29th ultimo, in which you inform the Department that the Mission, Central and Eastern Schools on the Tyendinaga Reserve will be closed at the end of the first week in July, as the teachers will then have completed the full number of days required.

In reply I beg to say that the returns for the June quarter last have been received from the Mission, Central and Western Schools.

A cheque for $265.00 is being sent to complete the salary of Mrs. Irene Brant, teacher of the Mission School and a cheque for $210.00 to Miss Lena Warren, teacher of the Central School. These amounts complete the full year's salary due these teachers to June 30th, last.

You should inform the Department of the number of days that Miss Thompson, teaches the Western School during the present month, when any balance of salary due [illegible] be paid her. She is now being sent a cheque for $[illegible]3.00 for the June quarter.

The return for the Eastern School has not [illegible]een received. Upon its receipt any balance of salary [illegible]e to June 30th will be paid.

I have to acknowledge the receipt of your letter of the 5th instant returning salary cheque from Mrs. Brant, teacher of the Mission School on the Tyendinaga Reserve, for the June quarter last.

In reply I beg to say that as you were informed by official letter of the 3rd instant, the amount of this cheque was due Mrs. Brant to complete her full year's salary to June 30th last. Mrs. Brant began duties September 11, 1917 and was paid $33.00 for her services for that quarter. She received $123.00 for the December quarter, $75.00 for the March quarter as the school was closed one month on account of shortage of fuel, and the amount $265.00 sent her for the June quarter completes her salary of $500.00 which she was entitled to receive for her year's services for the school year ending June 30th, last.

The cheque returned by you is enclosed herewith and you will be good enough to see that it is handed over to Mrs. Brant.

Sir, -

I have to acknowledge receipt of your letter of the 3rd instant, enclosing the resignation of Mrs. Ida Corman, teacher of the Western School on the Tyendinaga Reserve.

In reply, I beg to say that the resignation of Mrs. Corman is accepted, to take effect at the end of the present month. She should prepare her quarterly returns of attendance and hand them to you before she leaves the school.

It is noted that Mrs. Corman is desirous of obtaining a position as teacher in an Indian school in the western part of the province. You might inform Mrs. Corman that at the present time the only vacancies of which the Department is aware, are at the New Credit Indian Day School in the agency of Mr. W. C. Vanloon, Hagersville, Ontario, and for an assistant teacher at the Rama Indian Day School in the agency of Mr. Chas. J. Myers, Atherley, Ontario.

If Mrs. Corman cares to communicate with either of these agents they will give her full particulars regarding these schools.

Sir, -

I have to acknowledge the receipt of your letter of the 21st instant, enclosing the application of Mr. W. Frank Watson for the position as teacher of the Western School on the Tyendinaga Reserve to begin duties when the school reopens after the summer holidays, on or about September 1st, next.

In reply, I beg to say that it is considered that the qualifications which Mr. Watson possesses will be satisfactory for this school, and the Department will therefore approve of his appointment. His retention in the position, however, will depend upon the success with which he meets in his work. The salary allowed will be at the rate of $600 per annum, together with bonus [illegible] year.

You will be good enough to inform Mr. Watson of his appointment, and ascertain from him as to whether he will accept, and, if so, if he could be prepared to commence duties when the school reopens on or about the 1st of September, next.

Sir, -

I have to acknowledge the receipt of your letter of the 26th instant, requesting an advance of $35.00 on your salary for the current quarter as teacher of the Western School on the Tyendinaga Reserve, and also informing the Department that it is your intention to give up duties as teacher of this school and return to your home on the 10th instant.

In reply I beg to say that a cheque for $35.00 is being sent you in care of Mr. Agent Campbell as an advance on your salary. Quarterly Report Forms are being sent you under separate cover, and before you leave the school you should prepare a return showing the attendance and days taught by you from the 1st of October to the day you close the school.

In connection with this matter, I beg to refer you to official letter [redacted] of October 8th, last, in which you were informed of an over payment on salary of $21.00 for the September quarter, last. This amount will be deducted, as well as the advance now being sent, from the current quarter's salary.

Regarding your resignation, I beg to say that the same is accepted. This school will likely remain closed during the winter months, and if re-opened next Spring the question of engaging the services of a teacher will then receive attention.

Ottawa, February 28, 1922.

Sir:-

I have to inform you that Chief John Maracle visited the Department yesterday and strongly advised re-opening the Western school on the Tyendinaga reserve on or about the first of April. Chief Maracle left with the De-[illegible] Bandas St., Belleville, Ont. He claims that this Indian girl might give better satisfaction than the daughter of Levi Louis, upon whom you were asked to report in official letter of the 12th ultimo.

There seems to be a consensus of opinion that Mr. W. F. Watson, late teacher of the Western school, is too old to give satisfaction and that it would be inadvisable to re-engage him for this position. The Chief explained that Miss Maracle has had two years' high school work, plus some commercial training. I intimated to him that, if she or the daughter of Levi Louis were engaged, the salary would be $350 plus bonus. If you feel that one of these Indian girls could fill this position satisfactorily, it might be a good arrangement in the interim before a new building is erected.

I explained to Chief Maracle that the Department was hopeful concerning the erection of at least one new school on the Tyendinaga reserve this year, and I requested him to make overtures to the members of the band in an effort to have a minute passed in the Council, authorising the Department to use roughly $4,000.00 of the band's capital funds for a second new building, to be erected as soon as possible.

Your opinion and advice concerning these matters is requested.

MEMO. Letter # 34-1-1

Sir:-

I beg to your letter of June 14th Re the registration of Miss Jno John Teacher at the westren school I am enclosing same.

Also an application for the Westren school from Miss Helen Clarke,I may say that she holds a second class and Normal Training,and she is a clever scholar.

She asked the salary paid at this school and I told her,in her standing it would be $ 900. This girls home is in [illegible] ville and could board at home and her father could drive her in bad weather.

I would recomend that this girl be hired as their is no place for a Teacher to board within two miles of the school, this girl has applied for several schools in the distrec t where they are paying from $ 1000. and upward,and I would like for you to wire me as soon as you have examined her application.

If we do not hire this girl it will be hard to get a Teacher from a distance to stay at this school, and I would recomend Miss Helen Clarke for this school.

Waiting your reply.

Sir,

I am in receipt o' your letter of the 10th instant, reporting the the Council of the Mohawks of the Bay of Quinte have passed a resolution to the effect that Michael Brant be paid two dollars for banking the Western School house ; and in reply I have to inform you that you should forward a certified voucher in duplicate in Brant's favour.

In this connection I have to remind you that you have been repeatedly told that all accounts submitted to the Department for payment must be made out on , or attached to, the proper forms in duplicate , and I may say that you observance of the requirements of the Department in this respect would save much unnecessary correspondence and delay inthe settlement of accounts.

Your obedient servant.

Chief Sampson Green and Councillor Andrew Maracle called at the Department to-day and stated that the Indians of the Tyendinaga Band in Council had decided on putting the four school-houses on the reserve as well as the Council-house in a proper state of repair and they estimate that it would cost about $1000.00 to do this.

As two of the schools (namely, the Mission School and the "brick" School,) open soon, the Council have had the repairs done to these schools and they purpose going ahead and doing the others in the same way, as well as the Council-house,- the accounts for which will be duly passed upon by the Council and forwarded to the Department through the [illegible].

Sir,

Referring to the resolution of the Indian Council of Tyendinaga, dated the 1st instant relating to the repairs of school-houses, and council-house on the reserve, I beg to inform you that an Order in Council will be immediately applied for authorising the expenditure from the capital funds of the band of the sum estimated as the cost of the work, namely $1,000.

I have, however, to request you to specify in detail the repairs required to each building and the estimated cost thereof, and to send the same for the information of the Department. It is presumed that the work will be done by days' labour, under your general supervision

His Excellency

The Governor General in Council.

The undersigned begs to state that a resolution has been passed by the Tyendinaga Band in Council, province of Ontario, in favour of putting the four school-houses on their Reserve as well as the Council-house in a proper state of repair, for which purpose they estimate that it will cost $1000.00.

The undersigned would recommend that, as the repairs, when completed, will be in the nature of a permanent improvement and properly represent capital, Your Excellency in Council be pleased, under the 139th Section of the Indian Act (as added thereto by Sec. 11, Chap. 34, Vic. 67-68,) to approve of the necessary amount, $1000.00, being paid from the capital at the credit of the Tyendinaga Band, which amounts to $124,134.14.

Extract from a Report of the Committee of the Privy Council, approved by the Governor General on the 31st August, 1906.

302134

On a Memorandum dated 10th August, 1906, from the Superintendent General of Indian Affairs, stating that a resolution has been passed by the Tyendinaga Band in Council, Province of Ontario, in favour of putting the four school houses on their reserve as well as the Council house in a proper state of repair, for which purpose they estimate that the sum of $1000. will be required.

The Minister recommends that as the repairs when completed will be in the nature of a permanent improvement and properly represent capital, authority be given under the 139th section of the Indian Act (as added thereto by Sec.11, Chap.32 Vic.57-58) to pay the necessary amount, $1,000 from the capital at the credit of the Tyendinaga Band which amounts to $124,134.14

The Committee submit the same for approval.

Western Indian Day School, Dated October 12/11.
File 153 805-6.

I am glad to notice the improvements since last visit viz,- Fence, closet screens etc. I hope you will add those shade trees, water tank, clock and flag in the near future.

Except as noted above this building etc is in fairly good condition, the teacher, however, complains that it is very cold in winter weather, and the stove does not work well.

Teacher reports that caretaker has not swept this term. (She sweeps) and that he has lighted the fire only once, and that she has to split the wood. Is this in accordance with your arrangement with the caretaker? If so it would be unsatisfactory in a rural public school.

A cupboard in which to store apparatus etc. would add to its length of service.

As reported several times before blackboards are very poor.

Sir,

Mr. Inspector Clarke, in his last report on the Western Tyendinaga School, refers to the need of a water tank, clock and flag. You will be good enough to purchase a water tank and clock and a flag will be sent you from the Department for the use of this school.

The teacher at this school reports that the caretaker has not swept during the term and that he has lighted the fire only once. She states that she has even to split the wood for the school. I would ask you to be good enough to report what arrangements are made for the caretaking of this school.

The blackboards in this room are also reported to be very poor and you will be good enough to inform the Department as to the dimensions of the boards needed so that [illegible]loplate may be ordered.

A cupboard in which to store their books, apparatus, etc. is also needed. Be good enough to state whether you can have a suitable cupboard made and, if so, at what price.

BUILDINGS and PREMISES.

A new floor is necessary. At present the wind blows up through the cracks. There is also a crack above the wainscott which lets in the wind. The painting has not been completed as order by the agent some time ago.

A water tank in desirable for reasons stated in other reports.

Shade trees should be set out on these school lots. Why not set out fruit trees?

REMARKS

The building is badly in need of repair. I have written the agent twice about the repairs and nothing has been done yet. The foundation of stone is in such a bad condition, that unless it is "banked" we shall not be able to have school on cold windy days, for the wind blows up through the floor. Also there is a separation in the wall where the wind always blows in. This separation is 1/2" wide.

Ottawa, December 26, 1913.

Sir,-

I beg to inform you that the attention of the Department has been called to certain needed repairs to the Western School on the Tyendinaga Reserve. It is stated that the foundation is so badly pointed that unless it is banked it will be impossible to keep the school open on windy days during the winter, as the wind blows up through the floor. There is also said to be a crack in the wall, about half an inch wide. You will be good enough to have these matters attended to at once.

The Public School Inspector in his report on this school states that the painting has not been completed and that a water tank is desirable. You should see that the painting is finished and you may purchase a suitable water tank for this school.

Madam,-

I have to acknowledge the receipt of your letter of the 23th ultimo in regard to your salary for the March quarter, last, as teacher of the Western School on the Tyendinaga Reserve.

In reply I beg to say that the Department regrets the delay which has taken place in paying you and which has been occasioned by the neglect of the Agent to forward your return for that quarter. Your salary cheque will be sent you to-morrow and the Agent will be instructed to see that the building is put into proper condition at once.

Ottawa, May 5, 1914.

Sir,-

I have again to call your attention to your neglect of your duty in regard to school matters on the Tyendinaga Reserve.

Since your appointment as Indian Agent for this reserve you have failed to send in the monthly reports called for on the four schools under your charge and it is presumed that you have made no official visits to these schools during that time. You have also disregarded the Department's instructions to furnish an annual report on the work of these schools, although the fiscal year closed on March 31st, last.

Again by your negligence the teachers of these schools are kept out of their quarterly salaries, no returns having been received from you for the quarter ending March 31st, last. The Department considers this a serious matter, as the teachers are put to great inconvenience by the non-receipt of the money they have earned and I wish to assure you that unless you reply to this letter immediately giving some sufficient explanation of your carelessness in the past and forwarding without any further delay your annual report and the quarterly returns serious

Sir,-

You will be furnished with a copy of an official letter addressed to Mr. Donnelly, Indian Agent, Deseronto, calling his attention to his neglect of his duty in regard to school matters on the Tyendinaga Reserve. This letter referred more particularly to Mr. Donnelly's personal laches.

He has also failed to carry out his instructions in regard to repairs to the school buildings. Shortly after his appointment he was authorized to have the following repairs made to the different schools on the reserve:-

Eastern School.

Window sashes to be tightened and broken panes of glass replaced; closets to be battened and repaired and window lights placed in each. New desks were to be purchased and hyloplate blackboards put in position. There was some pointing to be done to the foundation.

Central School.

Broken panes of glass and sashes repaired; the coal bin cleaned out an d the screens for the closets moved [illegible] gravel, new blackboards placed in position and the stove put in order and cleaned.

Western School.

This school was to be painted inside. This has only been partly finished, as the paint pots have been left in [illegible]

the school. The cupboard, which was ordered, was made and placed in the school in the wrong position. To make room for this cupboard a blackboard was taken down and is still on the floor. The windows were to be repaired and window sashes have been brought there and are still in the school-room in front of the blackboard and are much in the way. The door is partly off its hinges. The outbuildings need attention, curtains are needed and there is no coal shovel provided for the coal stove in the winter. The banking around the school needs to be levelled off and the coal bin and shed cleaned and put in repair.

Mission School.

The closets were to be repaired, the loose plaster on the walls to be mended, broken panes of glass [illegible].

Flag poles were to be furnished for all the [illegible]ools and it was hoped that Mr. Donnelly would have [illegible] regular visits and seen that his instructions were [illegible]ed out. A truant officer was also to be appointed. [illegible]ar as the Department is aware none of these matters [illegible]s been attended to and you should see that the school- [illegible] and out premises are put in proper condition.

Western School

This building is very poor and I strongly recommend the erection of a new school building at an early a date as possible I have never seen as poor a building as this one made use of as a school. The building was moved some years ago and was badly wrecked and it is impossible to repair it satisfactorily. The school was not in session. The teacher stated she had dismissed the children on account of the cold. No wood being in the school. This was a flimsy excuse as in none of the other schools was there any fire on the day I visited them. I visited them all the same day. A new teacher should be secured as soon as possible.

There appears to be 22 on the roll, 5 boys and 6 girls had been at the school the morning of the day I visited the school.

The building is in poor condition and before another winter a new building should be erected.

Sir,-

In a recent report on the Tyendinaga Western day school, Inspector Clarke states that the roof of the porch leaks badly.

As the repairing of this will likely cost very little, you should have it attended to at once.

CANADA

Ottawa, August 6th, 1915.

Memorandum Mr. Scott,-

On my recent visit to Tyendinaga reserve to procure data in reference to condition of schools, I inspected the Western school and beg to report that this school is similar in size and design to the Mission school, but is in worse condition as the walls at foundation are bulging outwards until the sills are almost plumb with eaves of roof, although walls have been tied in with rods to protect further spreading and the collapse of the building.

A new shingled roof is also required as the shingles are badly broken and rotting off. The lean-to entrance addition also requires a new felt roof, the present one being entirely worn out and leaking badly, and should be replaced as soon as possible.

The school building is lighted on the two sides with two windows in each. The class-rooms being 20 x 30 with floor space for 34 pupils and air space for 24, the number enrolled.

The average attendance is 12, being one-half of the number registered, which is scarcely a creditable showing.

Indian Affairs. (RG 10, Volume 6226, file 496-5, part 1)

PUBLIC ARCHIVES ARCHIVES PUBLIQUES

The school grounds are 117 x 197 ft. with gradual fall to rear of lot, admitting of satisfactory drainage for basement under school.

As a new building is necessary and should be erected next year, I would recommend that sufficient patching only be done to render the roof temporarily water proof until a new building is ready.

Sir,-

At a recent inspection of the Western School, Tyendinaga Indian Reserve, it was noted that the shingled roof was in a very bad condition and requires a new roof covering. As it is necessary to build a new roof school at this place in the near future, patching of the roof only should be done, providingthat this will keep the building dry for the season.

A new felt roof is necessary for the entrance addition, which should be of similar felt to that specified for the recovering of the drive-house connected with recto-

This work should be proceeded with during the Summer holidays and completed as economically as possible.

Ottawa, April 14th, 1913.

With reference to resolution No. 7, of the Mohawk council, held on the 4th instant, regarding the sale by public auction of the old school buildings at the Central and Eastern schools, I beg to say that the Department will approve of the sale of these two buildings, provided you are satisfied that they would be of no further use for school purposes. At the Western school there is also the old site, comprising the S.E. corner of the E. ½ of Lot 10, Con. 2, E. of York Road, which should be disposed of at the same time as the buildings are sold. When this site was acquired, the purchase price, which was paid from band funds, was $15. The two old buildings, together with the former site of the Western school, should be sold for cash, if possible, and the money should be forwarded by you to the Department to be placed to the credit of the band funds.

You may arrange for the sale of these old buildings and the former site of the Western school at an early date, and you should see that a fair value is received for the same.

Your obedient servant,

D. D. McLEAN

Ottawa, May 18, 1923.

Sir,

I have your letter of the 15th instant, informing the Department that you are obtaining an estimate of the cost of building two new closets and a fence around the school lot at the new Western School on the Tyendinaga Reserve.

The price submitted by you should cover the cost of the materials and labour required. Separate closets should be erected, with screened approaches. Please give particulars as to the kind of fencing and the type of closet you would recommend. Also state whether the work should be done by contract or day labour.

Your obedient servant,

In reply to your letter of May 15th, Re new fence around the new Westren school and two new closers and screens their should be also a tight board fence from the back of the school to the back fence deviding the play ground, the closets should be built with a draw box and the fence should be woven wire Chief John W. Maracle went with me and measured the fence and the [illegible] about $ 220. in all but if we can use part of the old fence now at the Westren school it would not cost as much, Mr Maracle said he would do all the work for $ [illegible], this after is reasonable. The $.65 is included in the $ 220.

Ottawa, May 30th, 1923.

Sir:

I have to acknowledge the receipt of your letter of the 25th instant, furnishing an estimate of the cost of erecting a fence around the site of the new Western school on the Tyendinaga Reserve, and building two closets with screened approaches.

In reply I beg to say that you may arrange to have this work carried out. The fence should be of woven wire, with the necessary gates, and a tight board fence should be erected from the back of the school to the back fence dividing the playgrounds. The closets should be built at some distances from the back of the school, or in a corner of the grounds. They should be built with a draw box, and screened approaches should be provided at the entrance.

You should attend to the purchase of the fencing and material required for the closets. It will be necessary to obtain competitive prices from a number of dealers, and the material in each case should be purchased from the firm quoting the lowest price.

You may arrange with Mr. Meracle to do all the work. It is noted that you estimate the total cost of the fencing and the building of the closets, including material and labour, to be $220. The expenditure should be kept within this figure.

When the work has been completed, you should furnish properly certified vouchers, in duplicate, covering the expenditure incurred in the purchase of the material and for the labour.

This work should receive your early attention, and you should make the purchase of the material as soon as possible, and have the work completed at an early date.

Your obedient servant,

D. McLEAN

Extract for 34-4-5

Extract from Inspector's Report on the Tyendinaga Western Indian Day School, June 5, 1925.

More drinking cups are necessary.

Outbuildings are badly in need of cleaning and as in the case of the Central School, are much too far from the school and too near to one another.

The grounds both here and at the Central are perfectly bare of shade trees and on a day like this the children can find no shady spot to cool off. I would suggest that immediate steps be taken to commence a systematic planting on these grounds at the Central and also at the Eastern School and put in some trees this fall.

Sir:

The Public School Inspector, in a report on his recent visit to the Reserve, draws attention to the condition of the closets. They are much too far away from the school and too near to each other.

I have to request that you will arrange to have these closets put in proper condition before the school reopens after the summer holidays. Accounts, vouchers, in duplicate, should be forwarded covering the cost.

The Inspector has also drawn attention to the necessity of individual drinking cups at this and other schools on the Reserve. You might interview the teachers as to the arrangements that could be made if individual cups are provided. It would be useless to supply these cups if each child did not [illegible] to see that each child uses only his own cup. I should be pleased to have a report as to whether you would advise that these individual cups be supplied at each of the schools.

In reply to your letter of Nov 5th Inst Re Toilets at the Westren school, I beg to say that I have arranged to have these Toilets cleaned and I expect it has been done by [illegible], I may farther say that the same conditions as at the Eastren School exists as the traveling public has used the Toilets owing to the travel being turned through the Reserve this summer,but are now going over the Highway again and these Toilets will not be used.

As to the Toilets being close to gether I may that their is a tight board fence between them and they are at the south side of the lot directly behind the school.

As to the Toilets being moved they could be placed behind the school but would be as close together and it would cost about $ 10.

"I have no comment to make on these buildings beyond the fact that the closets should be cleaned out. On several reports I have pointed out to you the facts that the closets are inaccessible in bad weather, and are far too close together for moral reasons. However, you have evidently decided that your Agent knows more about such matters than I do and, in future, my only comment on them will be as to whether or not they are clean. Your Agent met me today at the Central School and he knew that I was going from there to the Western School, for I told him so, but he made no reference whatever to conditions here. I therefore have concluded that the matter is settled that they remain as they are."

This matter was drawn to your attention in official letter of October 20th, 1927. I shall be pleased to hear whether some arrangement could not be made for the proper storing of the kindling wood where it could be kept in a dry condition. Please state what you would recommend be done to provide the storage facilities required.

The Inspector also states that there is an inadequate supply of drinking water. At the present time they are getting water at a distance from the school and are [illegible] to drill a well at this school. Please also report regarding the question of drilling a well, stating how you would propose the work be done, giving the approximate cost of same.

In reply to your letter of Aug 2nd Re the painting the Westren school on the out side and the Cental school inside out side side and the work at the Mission school, I beg to say that I saw Enos Brant to day about the work and asked him if he if he would do the work by day labour and have Indian painters to help him and he said he could not as he had the only Indians [illegible] work, working for him,and he changed his figure [illegible] different jobs

For painting the Westren school two coats on the out side he will do it for $ 70.00
For the Central school two coats on out side $ 70.00
For the inside he will patch the walls and Kalcomine it for $ 13.80 or will paint the walls for $ 45.00 three coats which I think is reasonable and as cheap as day labour and we would be shure of a good job.

As to the Mission school repairs inside he says it will cost him $ 15.00 do do the plastering as the plaster is nearly all off the boys and girls cloak rooms and several patches in the class room he would do the plastering and the Kalcomining $ 30.00 or paint it three coats for $ 60.00 I beleive that the painting would be the best as it would last a long time and could be washed down when it gets dirty.

Regarding day looour on work of this kind I have found that I would have to be on the job every day to see that they done the work,which is impossible for me to be on a job as I have other work to look after.

The building is swept regularly but the teacher tells me that it has not been mopped or oiled since she came here last September.

These children have to carry drinking water for quite a considerable distance. Under these conditions, they are not getting nearly the quantity of water that they require, for children require much more water than do adults. You should have your own well and you should be able to get an adequate supply without going very deep.

The teacher reports that that seat was broken when she entered upon her duties here last September; she also says that the latch on the front door was out of order then, so that in windy weather the door will not stay shut.

The Public School Inspector, in a report on his recent inspection of the Tyendinaga Indian day schools, states that there are several windows broken in the various schools, which should be repaired, as they give a bad appearance. He also states that the draw boxes in the toilets are full to the seats and, unless these are [illegible]. 1. School proper is new and modern. There are a few broken windows that should be repaired at once.

2. Toilets are very unsatisfactory; they are too close together, about 4 ft; they are very inconveniently placed, being 50 paces from the school door. Hence are inaccessible in bad weather.

3. You should have your own water supply. These children carry water for a considerable distance and, therefore, do not get nearly what they require.

I fail to understand why your Agent so persistently ignores my advice concerning these toilets. Advice that I have given so many times that I am weary of it, and probably you are. They would not be tolerated at all in a Public School. Teachers in the past have told me that in bad weather the children either cannot or will not go to them at all. They could readily be placed a respectable distance apart and say 20 feet in the rear of the school, where they would be easily reached in any weather.

A coal fire may not be necessary yet, although they had one at the Central today, but it is too cold here today for children to sit at their desks without a little fire. There is plenty of coal but practically no wood. All I could find is some old posts that will not go into the furnace. There should be a supply of wood provided at once.

When your coal was put in, it was carelessly done for there is a good pailful on the ground outside the bin.

The metal connection between your furnace and the ventilating opening in the wall has been so bruised that it is useless as a ventilator. A few minutes work by one who knew how, would repair it.

The Inspector further states that, while there was sufficient coal on hand, there was practically no wood. He recommended that a supply of wood be provided at once. I have therefore to re-

livered the quantity of wood necessary for the winter's use. You should see that the wood is properly stored.

It is also stated by the Inspector that e furnace and the ventilating opening in the wall has been so bruised that it is useless as a ventilator and that a few minutes' work, by one who knew how, would repair it. You should have this connection repaired and in good condition as soon as possible.

This Department requires a few desks to complete the seating equipment in the Western School on the Tyendinaga Reserve, and I would request that you arrange to ship, at an early date, addressed to J. M. Campbell, Esq., Indian Agent, Deseronto, the following double school desks: -

1 No. 2 Preston double desk, entire seat, for pupils 15 - 18 years,
1 No. 3 Preston double desk, entire seat, for pupils 12 - 14 years,
2 No. 3 Rear seats - for above desks.

The desks should be shipped knocked down, and ink wells supplied with each.

This equipment should be provided at your lowest possible cost, and your account, in duplicate be forwarded to Mr. Campbell, who is being informed of the order placed with you, and requested, upon receipt of the desks, to certify the account and send it to the Department, when payment will be made.

EXTRACT FROM REPORT OF MR. INSPECTOR H.J. CLARKE, DATED MAY 22, 1931, ON HIS INSPECTION OF THE TYENDINAGA WESTERN INDIAN DAY SCHOOL.

Original on File 34-4-6.

It would be a simple matter to get water here. At present the children carry what they get for a considerable distance and the result is that they do not get nearly enough.

The air flue from the furnace, referred to on last report, was not repaired and has, in consequence, been practically useless all winter.

Sir:

Mr. Inspector McCoskin, in a report on his recent inspection of the Western School on the Tyendinaga Reserve, states that the front fence is down and past repairing, and that both the small [illegible] leaving the grounds open for cattle to enter.

I have to request that you will inform the Department regarding the repairs required to the fence and the cost of gates, if required, including repairs. You might also state if the former gates were removed, and, if so, if you are aware who removed them.

The Inspector also states that the plaster on the walls of the classroom needs repairing. You might enquire into this matter and inform the Department of the amount of repairs required and the approximate cost of same.

Please give these matters your prompt attention.

In reply to your letter dated July 19th Re the fence at the Western school, I beg to say the length of the new fence required is about 1¼ rods one large gate 10 feet and small gate 3 feet 6 inches and will require 6 posts, and the cost will be $ 30.00. Their is no small gate now and the large gate some one ran into it and broke it and it cannot be repaired.

As to the walls in the class room they are dirty and the walls in the cloak rooms are bad and should be calcimined and would not cost more that $ 10.00

1 - 10' gate and 1 - 3½' gate, also the posts required, and have the fencing and gates properly set up and installed. It is noted that you estimate the cost of the fencing material and labour to be approximately $30. You may also arrange to have the walls of the classroom and cloakroom kalsomined, and the cost of this work should not exceed your estimate of approximately $10. You will be good enough to arrange to have the above work carried out before the school reopens, and you should see that a satisfactory job is completed.

Please forward accounts, in triplicate, properly certified, covering the expenditure incurred in the purchase of the fencing material and for the labour in erecting the fencing and in kalsomining the interior of the school.

Deseronto, Ont. October 30th 1941.

Dear Sir:

Please be advised that a few small repairs are necessary at the Western IndianDay School on Tyendinaga Reserve and that the following materials are needed,

Latch for one outhouse door.
60 leneal feet of 4" corner board.
60 leneal feet 5" corner board.
1 pane glass 7" X 9" with putty and brads.
1 piece of 2 X 4 , 12 feet long.
2 lbs 2½ inch nails.

The screen and boxes at the outhouses at this [illegible] heaved out of the ground by frost and should be again set up properly. A water pail and a small fire shovel are needed in the class-room.

The pump at this school has been out of action for nearly a year due to the cylinder and plunger arm [illegible] in silt. It will need the services of a plumber or well driller to secure this part from this drilled hole and [illegible] from a nearby creek which is dirty and unfit for use.

There are three holes in the bottom section of the fire-box of the coal furnacette in use at this school and this is a danger as live coals drop out and it is becoming more of a danger from fire all the time. This [illegible] Ont. being a Hard Service Series, Good Cheer No. 520 model. A new part should be procured and installed as I believe these parts [illegible] might be taken to a foundry and repaired.

The cost of the small repairs to the building should not exceed $12.00 for materials and labour. I am not able to give an estimate for the repairing of the pump or the stove as the cost of the pump will mainly be based on the time taken to get the lost part out of the well as a new cylinder could not be installed until the other is secured. The price for the stove will depend on being able to procure the seperate part.

A. D. Moore, Indian Agent.

Dear Sir:

With reference to your letter of November 3rd, File 34-4-5 concerning the repairs to be made to the pump at the Western Indian Day School, I would advise that this well was drilled by a Mr. Gartley of Belleville whom I engaged to make the necessary repairs.

Mr. Gartley now advises me that there is nothing can be done to clear out the present drilled hole of this well and recommends that a new hole be drilled with an estimated cost of $ 70.00. When this pump was broken nearly two years ago part of the pump dropped to the bottom of the drilled hole and through negligence the hole was never plugged with the results that children or other persons have thrown rocks and debris down the hole to within twelve feet of the surface, all of which could have been eliminated if a wooden plug had been driven in the top of the well casing. Mr. Gartley does not consider any well driller can clear out the old hole at any less expense than drilling a new one.

As the school is at the present time using water obtained from Mud Creek adjacent to the school which is far from ideal for use, it is recommended that a new well be drilled at as early a date as possible if funds are available from the Department.

Dear Sir:

On December 16th 1941, the department authorized the sum of $70.00 to be expended in drilling a new well at the Western Indian Day School and I did contact Mr. Gartley, Well Driller of Belleville, Ont. to do this work.

Mr. Gartley is the only driller in this locality and has in the past drilled other wells on the reserve,did have the misfortune to lose his equipment by fire and being the Winter time he is not replacing his equipment until Spring at which time he will drill the new well at the Western School.

As this expenditure will not be completed by the end of the present fiscal year,I would ask your authority to expend the sum of $70.00 for this purpose from the 1942-43 appropriations.

While the Western Day school is in a fairly good state of maintenance, some small minor repairs are needed and should be made during the holiday period.

Replace two panes of glass in storm windows, the glass being procured by the pupil who broke same.
Procure an ash pan for coal heater 14" X 16" by 5" high.
Repair or replace two locks with door knobs as well for inside ante-rooms.
Replace two boards on outhouse screen and re-set posts holding the screen.
Procure one-half cord of light slab wood for fire lighting purposes.
Build a small tool shed for the storing of garden tools, storm windows, etc., on south side of the coal shed. Size 4' X ' by 7' high of T & G. lumber.
Procure and install a storm window 2' X 3' with four panes to cover air vent in the gable on the north side of the school.

At the present time there is no where except the coal bin to store any extra supplies, tools or windows and these are continually being brokem by having wood or coal piled on them and a little shed would not cost much to build for storage purposes and could be placed out of sight behind the ocal shed and kept closed with a pad-lock.

Through rain and snow coming in the air vent in the gable end, the ceiling and walls are being damaged and a window with glass should be put on hinges to be opened in warm weather and closed during the snowy season. A wire screen could also be nailed on the inside to prevent birds, bees, etc making a nesting place in the loft of this school.

The cost of materials for repairs at this school should not exceed $25.00 and the cost of labour $20.00 and it is requested that an advance for payment of wages be sent forward to this office, to be accounted for by credit voucher.

Dear Sir:

At the present time there are a total of twenty-four Indian children attending the Shannonville and Milltown public schools on whose account the department is paying tuiton fees until the end of the present school term. Unless the Indian parents pay these fees themselves to continue to send their children to these white schools, they will of necessity have to attend Western Indian Day school and the desk accomidation at this school is far from satisfactory. If all Indian children attend there would be an enrollment of thirty-eight.

The present desks are the old double absolete type and should be replaced with new single desks in various sizes to properly accomidate the pupils. The present desks are mainly small and cramp the children and are unsanitary when a school is crowded for seating accomidation.

The following single desks would be required to equip this school,

Please find enclosed in duplicate Requisition for Supplies necessary for repairs to be made at the Western Indian Day School which include repairs to the fence of the school grounds, and the painting of the interior of the school proper.

This school has a ceiling of matched fir which is [illegible] classroom. This lighting would be greatly improved if the walls and ceiling were painted in light colours as was done at the Central school which is of the same construction.

Under separate cover I am making a proposition to the Department concerning the inability to secure a teacher for the Central school which, if accepted, Western school could be closed until the end of the War or when a teacher could be secured, and in that case the repairs could be held in abeyance and the work done before the school reopens.

MAY 17 1945

Indian Affairs Branch,

In the estimates for 194[illegible] 1946, I placed the sum of $ 75.00 for painting and repairing at the Western Indian Day School of Tyendinaga Indian Reserve.

This school has been closed since September, 1944, and an endeavour is being made to have it re-opened this September by procuring a teacher for Central School and allowing Mr. Claus to return to his duties at Western. In addition to the painting necessary in the classroom, some fence repairs are necessary, also a new storm door and screen door should be procured and installed.

It is recommended that authority be granted to purchase materials not exceeding $ 40.00 and that an advance cheque of $ 35.00 be sent forward for the payment of wages in making these repairs.

General Repairs - Tyendinaga
Indian Day Schools

We are today requesting the Chief Treasury Officer to forward you an accountable advance of $400. to carry out the necessary repairs and painting required in the four schools in your superintendency.

It is understood that you will also submit requisitions for the interior and exterior paint required for these schools.

You are also authorized to make local purchase of lumber in an amount not to exceed $100. for the cupboards and toilet repairs also needed.

You are also authorized to expend an amount not to exceed $25. for the shrubs and hedge plants needed.

I hope that every effort will be made by you to have the teachers in the other schools attempt to bring their schools to the same standard of interior and exterior decoration as reached by Miss M. Stoddart in the Tyendinaga Eastern School.

Enclosed please find a tender to transport the children to Western School. This driver is quite reliable and do us a good job. He will use a 7 passenger Dodge Car (3 seats). His price is figured for 10 - 14 children and does not seem unreasonable to me. Also if the teacher should reside in Deseronto, she would be able to ride with him by paying her way and this would cut our costs by that amount.

OTTAWA, May 30, 1949.

Memorandum:

DIRECTOR.

Tyendinaga Western Indian Day School.

As a result of my recent inspection trip to the Tyendinaga Reserve, we have made the following decisions:

1. To postpone the building of a new school near the site of the present Tyendinaga Eastern building.

2. To re-open the Tyendinaga Western School, which has been closed for about three years. This building is in good condition and with the painting of the inside and outside will again be a creditable little day school. A new roof will also be neededbut it will be much cheaper than erecting a new building some 8 miles away.

3. To transport the surplus children from the Tyendinaga Eastern School to the newly re-opened western School. We have selected a group of children who are now walking between 2½ and 4 miles to the Eastern School and will transport them to the Western School. During most of the year it will be possible, by using a back road, to get them to this school over a route of about 7 miles. During heavy snows the route will be much longer and may approximate 12 miles.

4. That a tender be obtained from local taxi drivers in Deseronto for the transportation of these children. Please find attached a tender which Mr. Indian Superintendent Cassie has forwarded. In his covering letter he states as follows:

While I did not meet Mr. Maracle during my visit, I am informed that he is a reliable Indian who has been in the taxi business for some years in Deseronto and whose taxis are used by white and Indians alike.

I would like to discuss this contract with you when opportunity presents itself.

Yours truly,

J. P. Neary,

MEMORANDUM OF AGREEMENT made this Eighteenth day of July, One Thousand Nine Hundred and Forty-Nine;

BETWEEN: Russell Marsolo, Deseronto, Ont. in the County of Hastings, Province of Ontario, hereinafter called the Operator of THE FIRST PART,

AND: INDIAN AFFAIRS BRANCH, Department of Mines and Resources, Deseronto, Ont.

hereinafter called the Party of the Second Part,

WITNESSETH THAT in consideration of the mutual covenants, agreements and undertakings herein contained the Operator on behalf of himself, his heirs, executors, administrators and assigns, and the Party of the Second Part and their successors mutually covenant and agree as follows:-

1. The Operator shall transport to and from Western Day School each School day all pupils, designated by the Party of the Second Part, from the Tyendinaga Reserve who are in attendance at the school during the period covered by this contract, the estimated number being 12 pupils and one teacher.

2. This contract shall commence 1st day of September 1949 and terminate 30th day of June 1950.

3 The Operator shall use a motor vehicle properly licensed and insured as required by The Public Vehicle Act and the Regulations thereunder.

4. The Operator shall follow a route described as follows, leaving Deseronto and proceeding west to the Ferry Lane, thence north to the York Road and West to the Western School.

5. The first pupil shall be picked up not later than 8.30 a.m. Roads and weather permitting, the vehicle shall arrive at the school at 8.45 a.m. It shall leave the school at 4.15 p.m. and shall follow the route in the opposite direction.

6. The cost of all insurance shall be paid by the Operator.

7. The Party of the Second Part shall pay to the Operator the sum of: $5.00 per day for each day transportation service is provided.

8. The Operator shall pick up the pupils at any place on the route where the pupils may be, and shall permit them to alight at any place which they designate unless the stops on the route are designated by the Party of the Second Part.

9. In case of any accident causing personal injuries to any pupil, the Operator shall not be relieved from liability by reason of the vehicle being operated off the route described in Paragraph 4 of this Agreement, whether or not the vehicle is operated off the route with or without the consent of the Operator, and whether or not the vehicle is operated off the route at the request or consent of any passenger.

10. The Operator agrees with the Party of the Second Part that while the vehicle is operated on any private road or other place he shall assume the same liability as is imposed upon him by The Highway Traffic Act while the vehicle is operated on a highway.

11. The Operator shall be deemed to be in the business of carrying passengers for compensation, notwithstanding payment or lack of payment under the terms of this Agreement and notwithstanding any lack of power on the part of the Party of the Second Part to enter into this Agreement.

12. This Agreement may be terminated by mutual consent of the Party of the Second Part and the Operator or, on the last day of any calendar month, provided that written notice to that effect is given by either of the parties to the other at least one month prior to the said date.

IN WITNESS WHEREOF the Party of the First Part has set his hand and seal and the parties of the Second Part have hereunto set their hands and seals.

Reference your letter file 496-5(EI) Sept. 28, 1949, I do not consider these desks immediately necessary. However as I stated in my letter of Sept. 19th, even file, I do think the Department should consider replacing the double desks with a more modern type. The recent requistion was toward that end.

Referring to your letter of
No.

I beg to advise you that the Fort William Indian Industrial school until recently conducted at the old Mission on the Fort William reserve, owing to the occupation by the purchasers -the Grand Trunk Pacific Railway- have removed to a building erected by the Jesuit Order to Fort William City, therefor the school has left the Fort William reserve, this leaves the "Mountain" village without a school, the Indians of that village now ask that the school be opened and a capable teacher be employed, already one Miss Mc Grath has applied for the position, but on being informed of the salary $75 per quarter she does not think she would take it, Mrs Alex Mc Coy -a member of the band might take the job-there should be about 30 children to attend-

Has the fact of the Industrial school leavi the reserve any effect on their grant? they st carry on the boarding and Industrial Dept. as with about the same attendance which the rep this quarter will show.

Sir,

I have to acknowledge the receipt of your letter of the 15th instant, and in reply I beg to say that Mrs. McLaren should have given due notice of her intention not to re-open the Mountain School, Fort William Reserve, after the summer holidays.

Before the Department can approve of the appointment even temporarily of Miss Pelltier some information in reference to her qualifications is required. This is a school at which the Department would like to see a teacher with some qualifications engaged and for such a person a more liberal salary will be allowed. I would ask you advise the Rev. Father Drolet of the wishes of the Department and

Ottawa, October 6, 1911.

Madam,

Replying to your letter of the 30th ultimo I beg to say that the position of teacher of the St. Regis Island Indian School has been filled.

It is expected, however, that there will be at an early date a vacancy at the Mountain School on the Fort William Reserve. This school is situated convenient to the town and if you would have any desire to take up the work there I would ask you to make you application to the Rev. J. A. Drolet, S.J., Missionary, Fort William, giving him full particulars in reference to your certificates and experience and also copies of your testimonials. He will then communicate with the Department.

Your obedient servant,

Asst. Deputy and Secretary.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 18th instant in reference to the application of Miss Mona M. Halloran for the position of teacher of the Mountain School on the Fort William Reserve.

In reply I beg to say that, as the Department has made arrangements to retain Mrs. McLaren's services temporarily, it is considered that she should be allowed to remain in charge at least till the Christmas holidays. No doubt Miss Halloran, who, it is presumed, is a Canadian although she has been living for sometime in the United States, would be willing to return and take up the duties then. I should be glad to hear from you again in regard to this matter, as the Department wishes to be fair to Mrs. McLaren.

Sir,-

I beg to inform you that the Department is in receipt of a letter from the Rev. Father Drolet, Fort William, stating that he has secured the services of Miss Mary M. Halloran for the position of teacher of the Mountain School and recommending that the services of Mrs. McLaren be dispensed with.

In official letter of the 3rd ultimo you were informed that Mrs. McLaren's services were to be retained temporarily and that the Department reserved the right to replace her when a qualified teacher was available. Father Drolet states that unless Miss Halloran is placed in charge at once he will lose the opportunity of securing her. Ottawa, December 27, 1912.

On October 31st, last, the Department dispensed with the services of Mrs. McLaren, an Indian woman, who had been in charge of the Mountain Village School since it was opened in 1909. Rev. J. A. Drolet, the Missionary on that reserve, had nominated a Miss O'Halloran for the position, but, while waiting for final word from the Department, she accepted another school. Father Drolet then nominated a Mrs. Newey, an experienced teacher, but she was taken ill and forced to go to the hospital. On the 3rd of this month Father Drolet nominated a Mrs. A. J. Gough, a graduate of the Toronto Normal School, holding a Second-Class Professional Certificate. Mrs. Gough was at the time residing in Chicago and Father Drolet stated that he would write to her and ask her to go to the reserve as soon as possible and on the 7th instant the Department approved of her appointment. There is nothing on file to show whether Mrs. Gough has as yet taken up her work, but, if she has not already done so, no doubt she will after the Christmas holidays.

TEACHER,- Lessie Flood.

Fourth Form ~~Provincial~~Collegiate

Salary,- $450.00

Age,- 19.

As this teacher has had no professional training, the pupils seem to have the upper hand. I think, however, with the assistance and suggestions given, matters will improve.

The pupils of the school should do good work, as the majority speak English when they first come to school. English is also, used in the school grounds. All that is required to make success is an efficient teacher.

Miss Bessie Flood, the teacher, is absent and Mrs. McLaren is in charge. I understand that Miss Flood is undergoing some operation and will not likely be able to resume work for some time. At present, however she is quarantined on account of scarlet fever or measles.

With a "good" teacher in charge of this school there would no doubt be some results, as there are several very bright, promising pupil pupils in attendance at present. They require a teacher who will keep them properly occupied and who would be capable of preparing them for the Entrance to the High School in a few years.

[illegible] pay I beg to say that Miss Flood is at present in receipt of a combined salary and grant of $700. The Department believes, in recent advertisements calling for teachers for the Roman Catholic Separate Schools in Fort William, a salary at the rate of $750 per annum is offered for teachers holding 2nd Class Certificates. Miss Flood's qualifications consist of four years collegiate training and part "A" of normal entrance. It is considered that, for the qualifications she possesses, she is now receiving as much a salary as those offered teachers in the schools in the surrounding neighborhood. The Department is, therefore, not prepared to grant any further increase in her salary at the present time. The Department will be pleased to retain her services for another year, and I will be pleased if you will state whether she intends to remain at the salary paid her or not.

I. F. MacKenzie,

OTTAWA, October 6th, 1921.

Sir, -

I have to acknowledge the receipt of your letter of the 29th ultimo, enclosing a communication from the Chief of the Fort William Band requesting that the Mountain Road Indian Day School be closed and a school at Mission Bay be opened, for the reason that the larger number of children now reside near the latter school.

In this connection I would point out that the school building at Mission Bay was destroyed by fire this summer, and, no doubt, it would be necessary to make extensive alterations in order to provide sufficient class room accommodation in the teacher's residence; also desks, blackboards, etc., would have to be supplied. The Department cannot approve of the re-opening of a school in the teacher's residence at Mission Bay until full particulars are received as to the accommodation that could be provided, and the cost of fitting up the class room.

The Department would like to receive full particulars regarding the providing of educational facilities for the children at Mountain Road, if it was decided to close that school. You state they could attend a separate school in West Fort providing street railway fares were paid. I may say that this arrangement does not meet with approval, as the Department does not consider it advisable to have children travelling to and fro each day on the street railway. Full particulars should be given before the Department can come to a decision regarding the request submitted by you.

I beg to refer you to your letter of August 2nd, reporting the destruction by fire of the Mission Bay School and stating that you had taken the insurance on this building, which amounted to $1,000. I have to request that you will state when payment of this insurance may be expected.

Sir, -

I have to acknowledge the receipt of your letter of recent date in which you recommend that the Mountain Road Indian Day School be closed at the end of the present school year, viz: June 30th, next, and that a school be opened in the teacher's residence at Mission Bay.

In reply I beg to say that it is considered the teacher's residence at Mission Bay would not be suitable for school purposes. If it were used as a classroom there would be no accommodation for a teacher. Besides, it is considered that it would be necessary to still conduct the school at Mountain Road to provide educational facilities for the children residing on that part of the Reserve. The Department recognizes the need of a school at Mission Bay, as Mr. Bennett, the Separate School Inspector, in a report on his recent inspection of the Mountain Village school stated that there were 20 children at Mission Bay for whom school facilities should be provided.

At the present time we have no funds available for the erection of a new school building at Mission Bay and until such is available, the question of erecting a building and providing educational facilities at this point will have to remain in abeyance.

Ottawa, November 17, 1913.

Madam,-

I have to acknowledge the receipt of your letter dated September 8th, last, with reference to the amount of salary received by you for the September quarter last, as teacher of the Mountain school on the Fort William Reserve.

In reply I beg to inform you that all salaries for teachers of day schools, are paid in quarterly instalments, except when a teacher is engaged, whose duties commence after the summer holidays.

You are mistaken in the amount of the yearly salary which you are entitled to receive. Your salary was only increased to $450 per year from July 1st, last, and not $500 as you say. For the September quarter you were paid one-quarter of your salary at $450, or $112.50. If you remain as teacher of this school till June 30th, next, you will receive, therefore, the full yearly salary allowed.

A copy of the Indian Day School Regulations is enclosed herewith for your information.

Sir,-

I have to acknowledge the receipt of requisitions for the salaries of the teachers of the Mountain, Mission Bay and Lake Helen Day Schools for the quarter ending December 31st, last, and to inform you that the quarterly returns of attendance for these three schools have not yet been received. These should be forwarded at once, as the Department cannot pay the teachers' salaries till their quarterly returns have been received.

In reply to your letter of 22nd I have to say that to save time and probably $50 or $60 in the cost I ordered Mc Kinnon to make the seats and deskefor the "Mountain" village school, I had the local school Inspector Mr Ritchie go and examine these seats, he approves of them, they will seat each five scholars are well made and stained and look just as good as the factory made article,

The blackboard is not yet made , we should have one about 5 x 6 ft, Mc Kinnon will make it for the actual time at 30 cts per hour it takes to make it, we should also have a small table and two common chairs.

The Rev Sisters of the Port William Orphanage took all the seats and fixtures with them to the new school at Port William City

Sir,-

Mr. Inspector Jones in his report on the Mountain school states that the closets are too close to the school and that there are no pits.

These closets shold be removed from their present site to a greater distance from the building and proper pits should be made; or, if possible, the Department would prefer dry earth closets. Be good enough to report on this matter as soon as possible.

He also states that the desks are unsuitable. As you will recollect, these were made without authority from the Department. It would have been much better to provide modern desks for a new building such as this.

You might also ascertain the cost of a desk for the use of the teacher, or a good table, provided with a drawer and lock.

Some stationery for this school will be sent to your address, and you will be good enough to advise as to the sizes of the blackboards required.

It was the intention to have the closets of the school at Mountain village a little further away, either to use boxes or pits, I think the boxes will be better, it will be attended to,

The desks are being properly fastened to the floor and will answer the purpose just as well as $60 desks, two chairs and a table are being provided for the teacher, cost about $3.50, a blackboard has also been made.

It would simplify matters if the School Inspr would call at the office and make his suggestions or leave his orders.

We will also have to change the lock on the school as some one at the village has been in during the time the Teacher was away and scribbled in the register and other mischief

I beg to enclose herewith copy of a letter from Mrs. Mary Belanger which reached the Department on the 14th instant, in which she claims that her deceased husband was not paid for drawing 10 cords of wood for the Mount McKay Indian School in November last. There is a voucher on file, (copy of which is enclosed herewith) in Mr. McDougall's favor, in which appears a charge of $12.50 for 10 cords of wood drawn by M. Belanger for the Mountain Village School. Attached to the voucher is a sub-voucher signed by Mrs Belanger and others. Copy of the same is also enclosed. Payment of the total amount of [redacted] $25.00) was made by cheque No. 4106, sent Mr. [redacted] on the 30th November.

The Department desires that you will look carefully into this matter. You will observe that [redacted] would appear from the sub-voucher that the man who drew and cut the wood received payment from Mr. McDougall.

Sir,

Referring to your report on the Mountain school on the Fort William Reserve I have to ask you to be good enough to see that the closets are cleaned at once and also that the platform at the entrance to the school-room, referred to by you, is placed in proper position.

Maps of Ontario and Canada asked for for this and the Mission day school will be forwarded to your addressper.

You should also obtain an estimate of the cost of removing the stumps and cleaning up the school yard in order that the children may have some room for a play ground.

The matter of supplying new desks will be taken up at a later date.

Ottawa, April 9th, 1910.

Madam,

I have to acknowledge the receipt of a requisition forwarded by Mr. Inspector Ramsden for supplies for the Mountain school, Fort William Reserve.

In reply I beg to say that it is noted that two series of Readers are in use in this school and the Department wishes you to confine yourself to one. You will be good enough, therefore, to state which series you prefer, the Canadian or Dominion Catholic, and the number required.

You may purchase the two dozen slates and hand account to Mr. Ramsden for transmission to the Department.

Be good enough to leave the last column on the requisition form blank. You should fill in the columns showing the number on hand, the date of last receipt and the number required, but not the last column.

Your obedient servant,

Secretary.

Dear Sir:-

I herewith enclose you the vouchers of the Bon Ton store. I asked Mrs.McLaren the name of these people but she could not furnish me with the name, neither could I find it in the Directory and I had not time to go to Fort William to try and locate the store after receiving this, so I thought possibly a cheque could be made out for the Bon Ton store, however, if not, you had better return the account to Mr.Horn and ask him to obtain the information desired.

Ottawa, 25th August, 1910.

Sir,

I have to acknowledge receipt of your letter of the 12th instant in reference to repairs needed to the school-house and residence at Mountain Village. In reply I beg to say that you are hereby authorized to have this work done by Ambrose Cyrette. You may supply him with the necessary material and you will be good enough to see that the work is expeditiously done. In a letter of the 13th instant you were asked to give the sizes of the black board and the desks. You have omitted to furnish this information. The Department does not consider it advisable to make black boards as they never give proper satisfaction. If you will give the exact size of the board, c.e of hyloplate will be ordered. In regard to the desks, if you will send in a diagram of the school room showing the position they should be placed in, the Department can then order them and it will not be necessary for you to give the sizes.

If Cyrette is a reliable man, it is thought that the better way is to pay him by the day at a fair rate. All work to be done under your supervision and completed to your satisfaction.

I enclose herewith, account of A. Cyrette Jr. amounting to $49.59 for nine days work at Mountain Village School-House and School Residence. The work has been performed in a satisfactory manner and Cyrette requests that, the Department send a cheque at once for the amount of his account as he is in need of the funds.

I may add that, the School and Residence ought to have storm sash for the winter months as both are very cold during the severe weather. The cost of storm sash for both buildings including the cost of putting them up will not exceed $35.00. The School Teacher is anxious that the Department will authorize this to be done.

Sir,-

Referring to your letter of the 28th ultimo, I enclose herewith cheque No. 3861 in your favor for $10.63 in payment of the account rendered at $17.23, less the charge of $6.00 in connection with the account of Xavier Wolfren for placing twelve desks (2 rears) and a blackboard 6' x 4' in position. The charge in question is considered very high and requires explanation. It is thought that the work could have been done in one day.

Sir:

Miss margaret O Brien, Teacher of the Mountain Village School, on her quarterly return asked that a grant be made for prizes. In view of the comparatively large average attendance at this school the Department will make a grant of $10.00 for prizes to be distributed at the end of June.

You may therefore advise Miss O'brien that this grant will be made, and make arrangements for the purchase. The teacher should show all the articles purchased, with prices.

Madam,-

In reference to your remarks on the return of the Mountain School for the September quarter, last, I beg to say that the Department cannot make a grant towards a Christmas tree for this school as you were allowed $10.00 for prizes in June, last, and grants for this purpose are only allowed once in each year.

In regard to the poor accommodation in the line of playgrounds I have to ask you to be good enough to bring this matter to the attention of the Department in the spring, as it is now too late to do anything this fall.

Report of Inspector J.P.Finn on Mt.McKay School.

School House--

Very dirty. It hasn't been cleaned since November last.

Blackboards--

This is one of the most imprtant things in the eqüipment of any school and at present is very poor in quality and quantity. An additional blackboard is reqüire d.

School Grounds,-

Low and wet. These grounds could be easily improved with a few loads of sand.

Ottawa, May 22, 1914.

Sir,—

Mr. Inspector Finn, in his report on the Mountain School, states that the school-house is very dirty, that an additional blackboard is required and that the grounds are low and wet and could easily be improved with a few loads of sand.

You will be good enough to see that the school-house is cleaned at once and that it is kept clean in future. It should be swept daily and scrubbed at inter-vals.

You will be good enough to sate the dimensions of the blackboard required and hyloplate will be ordered from the Stationery Office.

The Department would like to have an estimate of probable cost of making the necessary improvements [illegible].
